Basis of accounts preparation

If this statement is a half yearly statement, it is a general purpose financial report prepared in accordance with the listing rules and AASB 1029: Half-Year Accounts and Consolidated Accounts. It should be read in conjunction with the last annual report and any announcements to the market made by the issuer during the period. [Delete if in applicable.]

Material factors affecting the revenues and expenses of the *issuer* for the current period

The Directors continue to work with the Chinese Government pig farms to negotiate a deal for the conversion of the farms in the Region. These negotiations have been longer and more difficult than first expected. This has now created a nil revenue for the company which has adversely affected our possible revenues and increased the costs of the organization.

Planned introduction of the LETU product to the Australian market has been put back again due to the initial difficulties with the immigration Department and the Australian Quarantine Inspection Service. These have been resolved with the further approvals now being sought from APVMA. The overall effect on the company of these delays and waiting for approvals has caused the company to have no revenue for the past six months.

At the date of signing this document the Directors have been advised verbally that the first stage of the APVMA approval have been agreed by APVMA and that the request to use LETU in the feeding of pigs in the trial has gone to the next level. Minimum time for this stage is another 2 months.

The factors above and other external factors have held up the companies expansion for the past 12 Months.

A description of each event since the end of the current period which has had a material effect and is not related to matters already reported, with financial effect quantified (if possible)

Notes

1. **For announcement to the market** The percentage changes referred to in this section are the percentage changes calculated by comparing the current period's figures with those for the previous corresponding period. Do not show percentage changes if the change is from profit to loss or loss to profit, but still show the amount of the change up or down.
2. **True and fair view** If this statement does not give a true and fair view of a matter (for example, because compliance with an Accounting Standard is required) the *issuer* must attach a note providing additional information and explanations to give a true and fair view.
3. **Consolidated profit and loss account**

| | |
|----------|--|
| Item 1.1 | The definition of "operating revenue" and an explanation of "sales revenue" (or its equivalent) and "other revenue" are set out in <i>AASB 1004: Disclosure of Operating Revenue</i> . |
| Item 1.2 | "other revenue" includes abnormal items, but excludes extraordinary revenue items. |
| Item 1.4 | "operating profit (loss) before abnormal items and tax" is calculated before dealing with outside equity interests and extraordinary items, but after deducting interest on borrowings, depreciation and amortisation. |
| Item 1.7 | This item refers to the total tax attributable to the amount shown in item 1.6. Tax includes income tax and capital gains tax (if any) but excludes taxes treated as operating expenses (eg. fringe benefits tax). |

4. **Income tax** If the amount provided for income tax in this statement differs (or would differ but for compensatory items) by more than 15% from the amount of income tax *prima facie* payable on the profit before tax, the entity must explain in a note the major items responsible for the difference and their amounts.

5. **Consolidated balance sheet**

Format The format of the consolidate balance sheet should be followed as closely as possible. However, additional items may be added if greater clarity of exposition will be achieved, provided the disclosure still meets the requirements of *AASB 1029*. Banking institutions may substitute a clear liquidity ranking for the Current/Non-Current classification.

Basis of revaluation If there has been a material revaluation of non-current assets (including investments) since the last annual report, the *issuer* must describe the basis of revaluation adopted. The description must meet the requirements of paragraphs 19-21 of *AASB 1010: Accounting for the Revaluation of Non-Current Assets*. If the *issuer* has adopted a procedure of regular revaluation, the basis for which has been disclosed and has not changed, no additional disclosure is required. Trusts should also note paragraph 10 of *AASB 1029* and paragraph 11 of *AASB 1030*.

6. **Statement of cash flows** For definitions of “cash” and other terms used in this statement see *AASB 1026: Statement of Cash Flows*. *Issuers* should follow the form as closely as possible, but variations are permitted if the *directors* (in the case of a trust, the management company) believe that this presentation is inappropriate. However, the presentation adopted must meet the requirements of *AASB 1026*. Mining exploration *issuers* may use the form of cash-flow statement in Appendix 5B.

7. **Net tangible asset backing** Net tangible assets are determined by deducting from total tangible assets all claims on those assets ranking ahead of the ordinary securities (i.e. all liabilities, preference shares, outside equity interests, etc). Mining *issuers* are *not* required to state a net tangible asset backing per ordinary *security*.

8. **Gain and loss of control over entities** The gain or loss must be disclosed if it has a material effect on the consolidated financial statements. Details must include the contribution for each gain or loss that increased or decreased the *issuer's* consolidated operating profit (loss) and extraordinary items after tax by more than 5% compared to the previous corresponding period.

9. **Equity accounting** If an *issuer* adopts equity accounting, no comparative equity accounting figures are required in the first period following its adoption.

10. **Rounding of figures** This statement anticipates that the information required is given to the nearest \$1,000. However, an *issuer* may report exact figures, if the \$A'000 headings are amended. If an *issuer* qualifies under an *ASIC* Class Order dated 17 August 1994, it may report to the nearest million dollars, or to the nearest \$100,000, if the \$A'000 headings are amended.

11. **Comparative figures** Comparative figures are normally the unadjusted figures from the previous corresponding period. However, if the previously reported figures are adjusted to achieve greater comparability, a note explaining the adjustment must be included with this statement. If no adjustment is made despite a lack of comparability, a note explaining the position should be attached.

12. **Additional information** An *issuer* may disclose additional information about any matter, and must do so if the information is material to an understanding of the financial statements. The

information may be an expansion of the material contained in this statement, or contained in a note attached to the statement. The requirement under the list rules for an *issuer* to complete this statement does not prevent the *issuer* issuing reports more frequently. Additional material lodged with the *ASIC* under the *Corporations Act* must also be given to the Exchange. For example, a *directors'* report and statement, if lodged with the *ASIC*, must be given to the Exchange.

13. **Accounting Standards** the Exchange will accept, for example, the use of International Accounting Standards for *foreign issuers*. If the standards used do not address a topic, the Australian standard on that topic (if one) must be complied with.
14. **Borrowing corporations** As at 1/7/96, this statement may be able to be used by an *issuer* required to comply with the *Corporations Act* as part of its half yearly financial statements if prepared in accordance with Australian Accounting Standards. However, borrowing corporations must comply with Schedule 5 of the Corporations Regulations. See regulation 3.6.02(4).
