Notes				

- For announcement to the market The percentage changes referred to in this section are 1. the percentage changes calculated by comparing the current period's figures with those for the previous corresponding period. Do not show percentage changes if the change is from profit to loss or loss to profit, but still show the amount of the change up or down.
- 2. True and fair view If this statement does not give a true and fair view of a matter (for example, because compliance with an Accounting Standard is required) the issuer must attach a note providing additional information and explanations to give a true and fair view.
- 3. Net tangible asset backing Net tangible assets are determined by deducting from total tangible assets all claims on those assets ranking ahead of the ordinary securities (i.e. all liabilities, preference shares, outside equity interests, etc). Mining issuers are not required to state a net tangible asset backing per ordinary security.
- 4. Comparative figures Comparative figures are normally the unadjusted figures from the previous corresponding period. However, if the previously reported figures are adjusted to achieve greater comparability, a note explaining the adjustment must be included with this statement. If no adjustment is made despite a lack of comparability, a note explaining the position should be attached.
- 5. Additional information An issuer may disclose additional information about any matter, and

must do so if the information is material to an understanding of the financial statements. The information may be an expansion of the material contained in this statement, or contained in a note attached to the statement. The requirement under the list rules for an *issuer* to complete this statement does not prevent the *issuer* issuing reports more frequently. Additional material lodged with the *ASIC* under the *Corporations Act* must also be given to the Exchange. For example, a *directors*' report and statement, if lodged with the *ASIC*, must be given to the Exchange.

- 6. **Accounting Standards** the Exchange will accept, for example, the use of International Accounting Standards for *foreign issuers*. If the standards used do not address a topic, the Australian standard on that topic (if one) must be complied with.
- 7. **Borrowing corporations** As at 1/7/96, this statement may be able to be used by an *issuer* required to comply with the *Corporations Act* as part of its half yearly financial statements if prepared in accordance with Australian Accounting Standards. However, borrowing corporations must comply with Schedule 5 of the Corporations Regulations. See regulation 3.6.02(4).
