Directors' Report

The Board of Directors of Jab Technologies Limited ("the Company") present their report on the consolidated entity (referred to hereafter as "the Group" or "Consolidated Entity") consisting of Jab Technologies Limited and its controlled entities for the financial year ended 30 June 2007.

Directors

The names and details of the directors of Jab Technologies Limited in office at the date of this report are:

**Geoff E Mullins, LLB, BCom. UNSW,
Barrister-at-Law
(Non-Executive Chairman)**

Over his 25 years in general management, Geoff has been providing corporate advice on the commercialisation of new technologies and ventures. With a strong background in both commerce and law, Geoff has used his high-level experience in information technology and communications to advise numerous Australian and International companies. Geoff is also Chairman of VentureAcess Capital Limited, VentureAcess Limited, VentureAcess Fund Managers Limited and Heart Assist Technologies Pty Ltd.

Appointed to the Board on 1 May 2007.

**Emyr Jones, BA Econ (Hons), FCA
(Non-Executive Director)**

Emyr has accumulated over 30 years professional experience as a corporate and financial officer in various listed UK companies, and non-executive director of, and investor in, emerging businesses. Following qualification as a Chartered Accountant in the UK, Emyr joined a leading listed Advertising Agency Group in London, before leaving to list a private Marketing Services Group on the London Stock Exchange. Emyr also assisted a new financial research business to raise seed capital via a corporate venture partner, becoming a founding director and shareholder. On exit of the corporate partner and investment by a leading European Venture Capital Group, Emyr became Non-Executive Chairman of the research business. Emyr moved to Sydney in 2001 and is currently a Director of VentureAcess Capital Limited, VentureAcess Limited and VentureAcess Fund Managers Limited as well as Non-Executive Chairman of Ceebron Pty Ltd and WebND Technologies Pty Ltd.

Appointed to the Board 1 May 2007.

**Karalyn Day
(Non-Executive Director)**

Karalyn has worked in the venture capital industry for the last 7 years, prior to which she managed a Japanese backed investment company. She has past experience as a state sales and channels manager of a publicly listed telecommunications company and in para-legal and legal practice management. Karalyn also has 12 years successful and extensive experience in the health industry and is currently a Director of VentureAcess Limited, VentureAcess Fund Managers Limited and Heart Assist Technologies Pty Ltd as well as being Company Secretary to various companies in the VentureAcess Group and its investee companies.

Appointed to the Board 1 May 2007.

Robert Murdoch (resigned 1 May 2007), Stephen Ioannides (resigned 22 February 2007) and Sean Stark (resigned 1 May 2007) also acted as Directors during the year.

Karalyn Day was appointed Company Secretary on 3 October 2007.

Mr Alex Chow was appointed Company Secretary on 1 May 2007 and resigned on 3 October 2007.

Mr John Lemon BA, LLB (Hons) was appointed Company Secretary on 13 February 2006 and resigned on 1 May 2007.

Principal activities

The Consolidated Entity's principal activities during the year were the development and release of the EZBiz platform of Internet e-business services.

Dividend

No dividends were recommended, declared or paid to members during the financial year.

Directors' Report (continued)

Review of operations

The Consolidated Entity (Jab Technologies Limited and its controlled entities) recorded a net loss after income tax benefit of \$221,469 for the year ended 30 June 2007, compared with a net loss of \$515,903 in the previous financial year.

On 15 May 2006 the Company lodged an Offer Information Statement ("OIS") with the Australian Securities & Investments Commission. Under the OIS the Company sought to raise a minimum of \$300,000 and up to \$1,200,000 to provide funds for further research & development of the EZBiz services range, acquisition of, or investment in, other entities and working capital.

On 14 June 2006 the Company extended the closing date for applications for shares under the OIS to 7 July 2006, but as the minimum subscription level had not been reached by that date all application monies received were refunded. Following this failure to raise funds under the OIS Mr S Ioannides resigned as the Company's Managing Director (but remained as a Director) on 12 July 2006, and the Company's Chairman, Mr Rob Murdoch, assumed responsibility for the day-to-day operation of the Company.

On 20 July 2006 the Company entered into a "Converting Loan Agreement" with Austex Mining Pty Ltd ("Austex"), a company associated with Director Mr Rob Murdoch. Under the Converting Loan Agreement Austex was required to provide a loan to the Company of \$100,000 to be secured by a fixed and floating charge over the assets and undertaking of the Company. The money was to enable the Company to meet its working capital requirements and to enable the Company's directors to evaluate other opportunities additional to the Company's current EZBiz business. With the approval of the Company's shareholders Mr Murdoch's right to receive repayment of the loan would be converted to shares in the Company to be issued to Mr Murdoch at an issue price of not less than \$0.10 per share. The share issue date would be no later than five (5) business days after the date shareholder approval is received. In the event that shareholder approval was not received, the loan would be repayable by the Company to Austex no later than 20 April 2007. Interest on the loan would accrue at the rate of ten per cent (10%) per annum, calculated daily.

On 19 September 2006 VentureAcess Capital Limited (VAC) announced that it would be making an off-market offer to acquire all of the issued share capital and outstanding options of the Company, and the VAC Bidder's Statement was duly sent to shareholders on 10 November 2006. Whilst your then Directors supported the offer from VAC, in view of the delays in the offer, it was proposed to shareholders at the Annual General Meeting that the Company should seek shareholder approval for the Company to be involved in mining exploration and development activity relating thereto. Shareholder approval was obtained and Jab Resources Pty Ltd was formed. In the Target's Response (7 December 2006) to the VAC offer the Director's unanimously recommended acceptance of the VAC offer, in the absence of any superior offer. It was also proposed that an in specie distribution of Jab Resources Pty Ltd shares be made, on a share for share basis, to existing shareholders and this was subsequently approved by shareholders. It was also announced in the Target's Statement that Austex, Jab Resources Pty Ltd and the Company had entered into a revised Converting Note Agreement whereby Jab Resources Pty Ltd would take over the liability of Jab Technologies Limited to repay the Converting Loan.

In April 2007 VAC announced that the offer to acquire the Company had been closed after successfully acquiring 71% of the issued ordinary shares in the Company. On 4 April 2007 VAC and Jab Technologies Limited entered into a Converting Note Agreement whereby VAC would advance \$52,000 to the Company for working capital purposes. The Loan carries interest at the rate of 10% pa, calculated daily, and converts into the Company's ordinary shares at \$0.075 per share, subject to shareholder approval being received. Following the payment by VAC of Directors emoluments and a Success/Introduction fee to Leadenhall Australia, the Company is currently indebted to VAC for nearly \$174,000. VAC has agreed to defer repayment of its Loan in favour of other creditors.

Five Year Summary of Performance

As the Company listed on 16 September 2005, only 30 June 2007 and 2006 figures have been included.

	2007 \$	2006 \$
Gross Revenue	154,331	31,700
Net profit (loss) before tax	(221,469)	(637,328)
Total assets	19,519	273,901
Total liabilities	(242,200)	168,206
Shareholders funds (deficiency)	(222,681)	105,695
Earnings (loss) per share (cents)	(1.49)	(3.61)
Dividends per share	Nil	Nil
Net tangible assets (deficiency) per share (cents)	(1.50)	0.71

Directors' Report (continued)

Matters subsequent to the end of the financial year

On 18 September 2007 the Company announced the acquisition of VentureAcess Limited (VAL), a funds management and financial consultancy business in a share for share transaction, subject to shareholder approval for the issue of the new Jab Technologies Limited shares. It is also proposed to change the name of the enlarged business to VentureAcess Group Limited, and a shareholder's meeting is being held on 1 November 2007 to seek shareholder approval for these matters as well as to seek approval for the VAC Converting Note referred to above.

Likely developments and expected results of operations.

Following completion of the acquisition of VentureAcess Limited, the Company's main activities will become fund managers and financial consultants. The Directors will review the viability of the EZBiz following completion of the VAL transaction.

Environmental regulation

The Consolidated Entity's operations were not subject to any particular and significant environmental regulation during the financial year.

Shares under option

Unissued ordinary shares of Jab Technologies Limited under option at the date of this report are as follows:

Expiry Date	Issue Price of Shares	Number of Shares Under Option
31 December 2009	\$0.20	8,865,029

Options holders do not have any rights under the options to participate in any share issue of the Company.

Shares issued on the exercise of options

No shares of Jab Technologies Limited were issued during the year ended 30 June 2007 as a result of the exercise of options over unissued shares in the Company, and no further shares have been issued since that date.

Insurance of officers

During the financial year Jab Technologies Limited paid a premium to insure all past, present and future officers and secretaries of the Company against liability for reasonable legal costs incurred in:

1. the investigation, defence, reporting, or negotiation for settlement of legal or arbitral proceedings or a claim for compensation; and
2. legally compellable attendance at any official investigation, examination or inquiry.

However, the insurance does not cover certain defined exclusions, including liability that arises from a dishonest, fraudulent or malicious act, intentional or wilful breach of statute, contract or duty, and others.

Meetings of directors

The numbers of meetings of the board of directors and of each board committee held during the year, and the number of meetings attended by each Director were as follows:

Director	Board Meetings		Board Committee Meetings Audit Committee	
	A	B	A	B
R.B. Murdoch	22	22	1	1
S. Ioannides	19	19	*	*
S. Stark	22	22	1	1
G Mullins	1	1	-	-
E Jones	1	1	*	*
K Day	1	1	-	-

A = Number of meetings attended

B = Number of meetings held during the time the director held office or was a member of the committee during the year

* = Not a member of the relevant committee

Directors' Report (continued)

Directors' interests in shares and options

Directors' interests as at the date of this report in shares and options over shares issued by the Company were as follows:

Director	No. of ordinary shares in which relevant interest held	No. of options in which relevant interest held
Geoff Mullins	Nil	Nil
Emyr Jones	Nil	Nil
Karalyn Day	Nil	Nil

Geoff Mullins, Emyr Jones and Karalyn Day have an interest in 10,623,687 ordinary shares and 7,272,487 share options held by VentureAcess Capital Limited, a company of which they are Directors.

Non-audit services

The directors of Jab Technologies Limited have considered the position and in accordance with advice received from the Company's Audit Committee, are satisfied that the provision of non-audit services during the year by Pitcher Partners and/or Northstar Accountants is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The directors are satisfied that the provision of non-audit services by Pitcher Partners and/or Northstar Accountants did not compromise the auditor independence requirements of the *Corporations Act 2001* for the following reasons:

- all non-audit services have been reviewed by the Audit Committee to ensure they do not impact the impartiality and objectivity of the auditor; and
- none of the services undermines the general principles relating to auditor independence as set out in Professional Statement F-1, including reviewing or auditing the auditors' own work, acting in a management or a decision-making capacity for the company, acting as advocate for the company or jointly sharing economic risk and rewards.

Remuneration report

The remuneration report is set out under the following headings:

- A. Principles used to determine the nature and amount of remuneration
- B. Details of remuneration
- C. Service agreements
- D. Equity-based compensation

The information provided under headings A-D includes remunerations that are required under AASB 124 Related Party Disclosures. These disclosures have been transferred from the financial report and have been audited.

A. Principles used to determine the nature and amount of remuneration

The remuneration policy ensures that contracts for services are reviewed on a regular basis and properly reflect the duties and responsibilities of the individuals concerned. The executive remuneration structure is based on a number of factors including length of service, relevant market conditions, knowledge and experience with the industry, organisational experience, performance of the Company and that the remuneration is competitive in retaining and attracting motivated people. There are no guaranteed pay increases included in the senior executives' contracts.

Up until 30 June 2006 the Company provided Stephen Ioannides and Sean Stark with a mixture of fixed pay and a variable equity based incentive based upon the performance of Jab Technologies' shares on the National Stock Exchange. Following their resignation as Directors of the company such equity based incentives ceased. Rob Murdoch did not receive an equity based incentive. From 1 July 2006 Messrs Ioannides, Stark and Murdoch received fees at lower levels in line with the changed circumstances of the Company, and these fees were satisfied by the issue of ordinary shares in VentureAcess Capital Limited.

Geoff Mullins, Emyr Jones and Karalyn Day who were appointed Directors on 1 May 2007 have agreed not to draw any Directors Fees from the Company until such time as the Company has sufficient operating activities and funds to make such payments.

Directors' Report (continued)

Remuneration report (continued)

A. Principles used to determine the nature and amount of remuneration (continued)

The fees and remuneration of key management personnel, the non-executive Directors' fees and Chairman's fee are reviewed by the Directors from time to time to determine that they are appropriate and in line with market expectations. The Chairman is not present at any discussions relating to the determination of his own remuneration.

Non-executive Directors' fees are determined within an aggregate Directors' fee pool limit. The current maximum amount of Non-Executive Directors' fees payable is fixed at \$30,000 per annum. The Constitution provides that this sum can only be increased pursuant to a resolution at a general meeting.

The key management personnel and the Directors are not entitled to any retirement benefits or receive any additional benefits except where provided by the superannuation guarantee scheme, which is currently 9%.

B. Details of remuneration

Amounts of Remuneration

Details of remuneration of the Directors and the key management personnel (as defined in AASB 124 Related Party Disclosures) of Jab Technologies Limited and its controlled entities are set out in the following tables.

The key management personnel of the Group are the Directors of Jab Technologies Limited and any executives that report directly to them. There were no such executives during the financial year.

The equity incentives payable to Stephen Ioannides and Sean Stark are set out in section C.

Details of the nature and amount of each element of the emolument of each Director of the company and each of the key management personnel for the consolidated entity receiving the highest emolument for the financial year are as follows:

Specified directors		Short-term benefits	Post-employment	Equity-based	Total
		Base Salary & Fees \$	Benefits Superannuation \$	Options \$	
Robert Murdoch (Non-Executive Chairman/CEO)	2007	27,500	-	-	27,500
	2006	16,919	-	-	-
Stephen Ioannides (Non-Executive Director)	2007	8,560	-	-	8,560
	2006	127,988	-	-	127,988
Sean Stark (Non-Executive Director)	2007	24,200	-	-	24,200
	2006	31,450	-	-	31,450
Geoff Mullins (Non-Executive Chairman)	2007	-	-	-	-
Emyr Jones (Non-Executive Director)	2007	-	-	-	-
Karalyn Day (Non-Executive Director)	2007	-	-	-	-
Total remuneration	2007	60,260	-	-	60,260
	2006	176,357	-	-	176,357

Directors' Report (continued)

Remuneration report (continued)

B. Details of remuneration (continued)

Amounts of Remuneration (continued)

Other key management personnel		Short-term benefits	Post-employment benefits	Equity-based benefits	PARENT ENTITY
		Base Salary & Fees \$	Superannuation \$	Options \$	Total \$
John Lemon	2007	-	-	-	-
	2006	17,508	-	-	17,508
Martin Jericho	2007	-	-	-	-
	2006	82,629	7,437	-	90,066
Michael Ilett	2007	-	-	-	-
	2006	17,679	-	-	17,679
Total Remuneration	2007	-	-	-	-
	2006	117,816	7,437	-	125,253

The subsidiary companies paid no remuneration to Directors and key management personnel nor were cash bonuses, non-monetary benefits or retirement benefits paid to the Directors or key management personnel.

Only Stephen Ioannides and Sean Stark were entitled to equity-based options.

The Directors and Executives remuneration have been determined on the basis of the cost to the entity, which includes specific benefits.

C. Service agreements

Agreements and Share Based Compensation

Jab Technologies Limited ("the Company") entered into a Consultancy Agreement with Mr. Stephen Ioannides and Jaz Software Pty ("Jaz"), an entity associated with Mr. Ioannides with effect from 6 June 2005.

Under this Agreement, the Company engaged Jaz to provide executive public company management and such other services as may be required by the Company, for 2 years from the date that Jab Technologies Limited listed on National Stock Exchange ("NSX"), and also secured the services of Mr. Ioannides to act as Chief Executive Officer of the Company. Mr Ioannides resigned as CEO on 12 July 2007 effectively terminating the Agreement with Jaz. Mr Ioannides continued as a Non-Executive Director until his resignation on 22 February 2007.

The Agreement provided that Jaz would:

- (a) be paid a fee of \$11,400 per month (exclusive of GST); and
- (b) subject to shareholder approval, be issued with a total of 1,920,000 options to subscribe for ordinary shares in the capital of the Company on the last day of the month in which Jab Technologies is admitted to the official list of the NSX. The options are exercisable at 20 cents per share on or before 31 July 2008.

Of the 1,920,000 options to be issued to Jaz, 80,000 options will vest on the last day of each month of the 2 year term of the agreement provided that the average closing price of the Jab shares (during that month) is equal to or greater than \$0.20. If the average closing price for any month is below \$0.20 then that month's options will not vest. During the year ended 30 June 2007 the Jab share price remained below \$0.20 shares and no options vested during the year. The granting of 1,920,000 options to Jaz had been independently valued at \$78,298 in 2006.

Directors' Report (continued)

Remuneration report (continued)

C. Service agreements (continued)

Agreements and Share Based Compensation (continued)

The Company entered into a Consultancy Agreement with Mr. Sean Stark, which commenced on 6 June 2005. Under this Agreement, Mr. Stark was appointed as a non-executive director of the Company for 2 years from the date that Jab Technologies Limited listed on NSX, to assist in developing and commercialising the Company's products.

The Agreement provided that Mr. Stark would:

- (a) be paid a fee of \$1,200 per month;
- (b) be paid a consulting retainer of \$1,000 per month; and
- (c) subject to shareholder approval, be issued with a total of 360,000 options to subscribe for ordinary shares in the capital of the Company on the last day of the month in which Jab Technologies Limited is admitted to the official list of the NSX. The options are exercisable at 20 cents per share on or before 31 July 2008.

Of the 360,000 options to be issued to Mr. Stark, 15,000 options will vest on the last day of each month of the 2 year term of the Agreement provided that the average closing price of the Jab Shares (during that month) is equal to or greater than \$0.20. If the average closing price of the Jab Shares (during the month) for any month is below \$0.20 then that month's options will not vest. During the year ended 30 June 2007 the Jab share price remained below \$0.20 and no options vested. The granting of 360,000 options to Mr. Stark had been independently valued at \$14,681 in 2006.

An agreement for the provision of administrative services by Union Resources Limited ("Union") was entered into on 13 May 2005, but did not commence until 6 September 2005. Pursuant to the Agreement, Union provided administration and management services to the Company, including services such as secretarial and accounting support, office furniture, equipment and telephone and reception facilities.

In consideration for the provision of these services, Union is reimbursed for the costs it incurs in providing the services upon presentation of a monthly invoice by Union, and in any event, not more than \$2,500 per month. The initial term of this appointment is for 12 months, and if not terminated at the expiry of this term, will continue for successive 12 month periods until terminated.

Remuneration and other terms of employment for the Chairman and other key management personnel of the group are formalised in service agreements. The contractual arrangements contain certain provisions typically found in contracts of this nature. Other major provisions of the agreements relating to the remuneration are set out below:

- R. B. Murdoch (Managing Director)
Base Salary of \$125 per hour plus travel, accommodation and general out of pocket expenses
Period of Termination – Three (3) Months

Directors' Report (continued)

Remuneration report (continued)

D. Equity-based compensation

The options are granted to Jaz, a company associated with Mr. Ioannides, and Mr. Stark under their respective service agreements. The options are granted for no consideration and are subject to the satisfaction of a market condition.

The options are granted for a two (2) year period and carry no dividend or voting rights. Each option was exercisable at eight (8) cents at any time before 31 July 2008 or within three (3) months after the Director ceases to be employed by Jab and each option is convertible into one (1) ordinary share.

If the Market Condition had been satisfied, the grant of the options would be subject to shareholder approval and obtaining approvals pursuant to the Corporations Act and the Listing Rules of the NSX. The actual grant date will occur after Jaz and Mr. Stark have rendered their services. The Company recognises the services when received and has recognised the grant date fair value of the options for the purposes of recognising the services received during the period between the service commencement date and actual grant date ("Entitlement Date").

For the year ended 30 June 2007 no entitlements to options arose as market conditions were not met. As at 30 June 2006, Jaz had become entitled to a total of 160,000 options and Mr Stark had become entitled to a total of 30,000 options. However, at 30 June 2006 shareholder and regulatory approval has not been sought for the issue of the options and no options were forfeited or exercised during the year ended on that date. Subsequently, in July 2006, each of Jaz and Mr Stark waived their right to receive the 160,000 options and 30,000 options respectively.

Set out below is a summary of options granted to Jaz and Mr Stark.

Entitlement Date	Expiry Date	Exercise Price	Balance at start of the year (Number)	Entitled during the year (Number)	Exercised during the year (Number)	Expired during the year (Number)	Balance at end of the year (Number)	Exercisable at end of the year (Number)
31 Oct 2005	31 Jul 2008	\$0.08	—	95,000	—	—	—	—
31 Nov 2005	31 Jul 2008	\$0.08	—	95,000	—	—	—	—
Total				190,000				

The fair value of the options had been calculated at \$0.0408 per option using the Black-Scholes option pricing model that takes into account exercise price, term of the option, vesting and market conditions, the impact of dilution, the non-tradeable nature of the options, the share price at grant date, expected price volatility of the underlying shares, the expected dividend yield, discount for non transferability and the risk-free interest rate for the term of the option.

No other Director or other key management personnel of the Group are eligible to participate in the option scheme.

Directors' interests in shares and options

As at 30 June 2007, the interests in the equity instruments of the Company held by Directors and other key management personnel of the Group were as follows:

Directors	Ordinary Shares Fully Paid		Options Listed	
	30 June 2007	30 June 2006	30 June 2007	30 June 2006
G Mullins	—	—	—	—
E Jones	—	—	—	—
K Day	—	—	—	—
R.B. Murdoch	—	1,315,750	—	190,268
S. Ioannides	—	583,571	—	—
S. Stark	—	145,000	—	40,000

Directors' Report (continued)

Remuneration report (continued)

Directors' interests in shares and options (continued)

As at the date of this report the Directors' interests and nature in shares and options issued by the Company were nil.

Audit committee

This committee oversees and appraises the quality of audits conducted by the consolidated entity's external auditors, as well as determining the adequacy of administrative, operating and accounting controls. It is responsible for ensuring that the consolidated entity properly complies with all legislation and policies affecting its daily operations. It maintains open lines of communication between the Board and external advisers and oversees the identification of risk to ensure its proper management.

Members of the Audit Committee during the year were:

Name

R. B. Murdoch – resigned 1 May 2007

S. Stark – resigned 1 May 2007

G Mullins – appointed 1 May 2007

K Day – appointed 1 May 2007

Remuneration report, service agreements and share based payments

Remuneration, service agreement and share based payment details for the executive director, non-executive directors and senior executive officers of the company and consolidated entity are set out in the Remuneration Report section of this Directors' Report.

Directors' interests in contracts

As referred to in Review of Operations above, on 20 July 2006 the Company entered into a Converting Loan Agreement with Austex Mining Pty Ltd whereby Austex provided a loan facility of \$100,000 to the Company. It was announced in December 2006 that Austex, Jab Resources Pty Ltd and the Company have entered into a revised Converting Note Agreement whereby Jab Resources Pty Ltd would take over the liability of Jab Technologies Limited to repay the Converting Loan. As a consequence the Company obtained a benefit of \$60,748 which is shown as debt forgiveness income in these accounts. Rob Murdoch is associated with Austex Mining Pty Ltd. On 4 April 2007 VentureAxess Capital Limited and Jab Technologies Limited entered into a Converting Note Agreement whereby VAC would advance \$52,000 to the Company for working capital purposes. The Loan carries interest at the rate of 10% pa, calculated daily, and convert into the Company's ordinary shares at \$0.075 per share, subject to shareholder approval being received. G Mullins, E Jones and K Day are Directors of VentureAxess Capital Limited.

No other material contracts involving Directors' interests were entered into during the financial year, other than those transactions detailed in the Remuneration report section of this Directors' Report.

Tax consolidation

Effective 4 September 2004, for the purposes of income taxation, Jab Technologies Limited and its wholly owned subsidiaries have formed a tax consolidated group. Members of the group have entered into a tax sharing arrangement in order to allocate income tax expense to the wholly owned subsidiaries on a pro-rata basis. In addition, the agreement provides for the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations.

Directors' Report (continued)

Corporate governance

The Board of Directors is responsible for the Corporate Governance of the consolidated entity. The Board is committed to achieving the highest standards of corporate behaviour and accountability. The company's Corporate Governance Statement is contained in the following section of this report.

Appointment of Auditors

Pitcher Partners resigned as Auditors on 1 October 2007 subject to ASIC consent. Following correspondence with ASIC, Andrew Stanning of Northstar Accountants was appointed Auditors to the Company on 29 October 2007.

Auditors' independence

Section 307C of the *Corporations Act 2001* requires the Company's auditors, Northstar Accountants, to provide the Directors with a written independence declaration in relation to their review of the financial report for the year ended 30 June 2007. The written Auditor's independence declaration is attached to the Directors' Report and forms part of this Directors' Report.

Rounding

The company is of a kind referred to in Class Order 98/0100, issued by the Australian Securities and Investments Commission, relating to the rounding of amounts in the financial report. Amounts in the financial report have been rounded in accordance with that Class Order to the nearest dollar.

Geoff Mullins

Chairman

Sydney, 31 October 2007

AUDITOR'S INDEPENDENT DECLARATION

AUDITOR'S INDEPENDENCE DECLARATION TO THE DIRECTORS OF JAB TECHNOLOGIES LIMITED

In relation to our audit of the financial report of JAB Technologies Limited for the year ended 30 June 2007, to the best of my knowledge and belief, there have been no conventions of the auditor independence requirements of the Corporations Act 2001 or any applicable code of professional conduct.

Statement of Corporate Governance Practices

Corporate Governance Statement

This statement outlines the main corporate governance practices in place under the headings contained in the ASX Corporate Governance Council's "Principles of Good Corporate Governance and Best Practice Recommendations" ("the ASX Principles"). (The Company is listed on the Newcastle Stock Exchange, which does not prescribe comparable standards to the ASX Principles. The Company has therefore chosen to have regard to the ASX Principles).

Principle 1 - Lay solid foundations for management and oversight

The Board is responsible to shareholders for the group's overall Corporate Governance. The Board delegates to the Chairman or Chief Executive Officer (CEO) and the executive team the responsibility for the operation and administration of the consolidated entity. The Board ensures that this team is appropriately qualified and experienced to discharge their responsibilities and has in place procedures to assess performance.

The key responsibilities of the Board are to:

- Establish, monitor and modify the corporate, business and tactical level strategies of the Company;
- Ensure compliance with good corporate governance and other requirements of the law;
- Monitor the performance of the Company and its management;
- Undertake a review of risks and further develop systems of internal control;
- Approve decisions concerning capital and major expenditure; and
- Ensure proper disclosure to shareholders and other stakeholders.

Principle 2 - Structure the Board to add value

The current Board of three members comprises of non-executive directors. The names, skills, experience of the directors in office at the date of this statement and the period of office of each director are set out in the Directors' Report contained in this Financial Report. The directors believe that the Board is of sufficient composition, size and commitment to adequately discharge its responsibilities and duties.

Independence of Directors

Whilst all three of the Directors are Non-Executive Directors, they are not considered independent because of their Directorship or involvement with VentureAcess Capital Limited which holds a 72% interest in the Company. Due to the size and nature of the Company, the Board does not consider that a majority of Independent Directors is necessary but will seek to appoint at least one Independent Director during the course of the current year. The Board believes that the individual directors make quality and independent judgments in the best interests of the Company.

The Board distinguishes between the concept of independence and issues of conflict of interest and material personal interest. The Board's policies and procedures ensure that interests in the matters are disclosed and that the relevant director is excluded from voting in matters relating to conflict of personal and material interest. All directors are also able to obtain independent advice at the expense of the Company.

The composition of the Board will be monitored to ensure that additional independent directors are appointed on a timely basis to fulfil specific skill sets needed by the Board to discharge its responsibilities competently and to meet its obligations.

Chairperson of the Board

For the period to 1 May 2007 the chairperson of the Company was Rob Murdoch, who was a non-executive director until the resignation of Mr Stephen Ioannides as Chief Executive Officer on 12 July 2006. For the period from 12 July 2006 to 1 May 2007, Mr Murdoch also assumed some executive responsibilities within the Company.

On 1 May 2007 Geoff Mullins was appointed Non-Executive Chairman of the Company.

Statement of Corporate Governance Practices (continued)

Corporate Governance Statement (continued)

Principle 2 - Structure the Board to add value (continued)

Nomination

As Jab Technologies Limited has a relatively small Board it has not established a formal nomination committee. The whole Board participates in the selection of members of the Board. The Board has adopted a Nomination and Remuneration Policy.

The Nomination and Remuneration Policy delegates to non-executive directors the responsibilities of:

- Assessing the necessary competencies of Board members to add value to the Company;
- Reviewing the Board succession plans;
- Evaluating the Board's performance; and
- Providing recommendations for the appointment and removal of members of the Board and Committees of the Board.

Principle 3 - Promote ethical and responsible decision making

Code of Conduct

The Company is firmly committed to ethical business practices, a safe workplace and compliance with the law. Fair dealing with the Company's suppliers, advisors, customers, employees and competitors is expected at all levels of the organisation. All directors, executive management and employees are expected to act with integrity to enhance the performance of the Group. The Company has established a Code of Conduct which provides a guide to the Directors and employees as to the practices necessary to maintain confidence in the Company's integrity and ethical practices.

Trading in Company Securities by Directors, Officers and Employees

The Board has established written guidelines set out in its Corporate Ethics and Securities Trading Policy that sets guidelines for trading in the Company's shares. The policy restricts the buying or selling of Company Shares within seven days prior to the release of the half year and annual reports and at any time during which the directors are aware of unpublished price sensitive information.

Principle 4 - Safeguard integrity in financial reporting

Statement to the Board by the Chief Executive Officer and Chief Financial Officer

At any time that the Company employs a Chief Executive Officer and/or a Chief Financial Officer, the Board requires that the Chief Executive Officer and Chief Financial Officer state in writing to the Board that the consolidated financial statements of the Company and its controlled entities present a true and fair view, in all material respects, of the Group's financial condition and operational results and are in accordance with applicable accounting standards.

Audit Committee

The Audit Committee operates under a Charter approved by the Board. It is the Audit Committee's responsibility to ensure that an effective internal control framework exists within the consolidated entity. This includes internal controls to deal with both the effectiveness and efficiency of significant business processes, the safeguarding of assets, the maintenance of proper accounting records, and the reliability of financial information as well as non-financial considerations such as the benchmarking of operational key performance indicators.

The roles and responsibilities of the Audit Committee are contained in a written charter.

Some meetings of the Committee will be attended (by invitation) by any Chief Executive Officer/Managing Director and/or Chief Financial Officer, and the engagement partner from the Company's external auditors and also any such other senior staff or professional people as are appropriate from time to time. The Company ensures that at least one person present had financial experience and that some members had an understanding of the activity carried out by the Company.

Following the appointment of the new Directors to the Board, and the relocation of the Company's head office from Brisbane to Sydney, the Audit Committee determined that there was a practical need for a change in the external auditor to a Sydney based practice. Accordingly, the Board appointed, with the consent of ASIC, Northstar Accountants as Auditors, subject to the approval of shareholders at the next Annual General Meeting of the Company.

Statement of Corporate Governance Practices (continued)

Corporate Governance Statement (continued)

Principle 5 - Make timely and balanced disclosure

The Company has established policies and procedures designed to ensure compliance with the NSX Listing Rule requirements so that announcements are made in a timely manner, are factual, do not omit material information, are balanced and are expressed in a clear and objective manner so as to allow investors to assess the information when making investment decisions. The Chief Executive Officer and Chief Financial Officer are responsible for interpreting and monitoring the Company's disclosure policy and the Company Secretary is responsible for all communications with the NSX.

NSX announcements will also be published in due course on the Company's website. The Company's Statement of Corporate Governance Policy contains procedures relating to the timely and balanced disclosure.

Principle 6 - Respect the rights of shareholders

The Company aims to keep shareholders informed of the Company's performance and all major developments in an ongoing manner. Jab Technologies Limited regularly communicates to its shareholders in a timely manner through:

- Relevant disclosures made in accordance with NSX Listing Rule disclosure requirements;
- Annual financial reports which are distributed to those that specifically request a copy;
- Making documents that have been released publicly available on the Company's website; and
- Communicating with shareholders electronically through the Company's web based application.

The Company has requested that the external auditor attend the annual general meeting and be available to answer shareholder questions about the conduct of the audit and the preparation and content of the auditor's report.

Principle 7 - Recognise and manage risk

Oversight of the risk management function

The Company recognises that it is necessary to undertake activities that involve a level of risk in order to achieve high levels of performance. The Board and Audit Committee are responsible for the oversight of the Group's risk management and control framework.

The size of the Company and the comprehensive nature of its reporting systems have led the Board to conclude that a formal internal audit process would not be cost effective nor reduce risk. There is no formal Risk Management Policy, however the Company is focused on the identification and management of risk including:

- Establishing the Company's corporate level and business level goals and monitoring and implementing strategies to achieve these goals;
- Identifying and measuring risks that might impact upon the achievement of the Company's goals and monitoring for trends and emergent factors;
- Reviewing the half-year reports and other reports required to be lodged with the NSX; and
- Establishing separate project teams to identify risk management strategies and monitoring the risk and implementation strategies for each major company project. The project managers report to the Board on a regular basis.

The Board believes that there are adequate controls to ensure that financial reports provide a truthful and factual position for the Company.

Certification of risk management controls

The Chief Executive Officer and Chief Financial Controller are required to make an annual written statement to the Board with respect to risk management and internal controls.

Principle 8 - Encourage enhanced performance

The Board undertakes an annual review of its performance and the performance of key executives. Directors were initially invited to join the Board on the basis of their experience and skills in relation to the Company's activities.

The performance criteria against which Directors' and executives are assessed align with the Company's objectives. The Board has a responsibility to ensure that executive remuneration is fair and reasonable, having regard to the competitive market for executive talent, structured effectively to motivate and retain valued executives, and designed to produce value for shareholders.

Statement of Corporate Governance Practices (continued)

Corporate Governance Statement (continued)

Principle 9 - Remunerate fairly and responsibly

As Jab Technologies Limited has a relatively small Board it has not established a formal remuneration committee. The whole Board is responsible for recommending and reviewing the remuneration arrangements for the directors, chief executive officer and senior executive team.

The Nomination and Remuneration Policy requires that a majority of non-executive directors must approve changes to the remuneration or contract terms of Directors, the design of new remuneration packages, equity based remuneration packages, performance based remuneration, any cash-based incentive plans and termination payments to Directors.

It is the objective of Jab Technologies Limited to provide maximum stakeholder benefit from the retention of a high quality Board and executive team by remunerating Directors and key executives fairly and appropriately with reference to relevant employment market conditions. The expected outcomes of the remuneration policy are:

- Retention and motivation of key executives;
- Attraction of quality management to the Company; and
- Performance incentives, which allow executives to share the rewards of the success of the Company.

Executive directors are remunerated by means of a fixed based remuneration. The Company is currently reviewing its remuneration policies and practices and considering the introduction of performance based and equity based remuneration. Non-executive directors are entitled to director's fees. Non-executive directors are not entitled to any retiring allowance payable upon their retirement as a director of the Company. The details of the Directors' and Senior Executives' remuneration are set out in the Directors' Report and in note 22 "Key management personnel disclosures" in the Financial Report.

Principle 10 - Recognise the legitimate interests of stakeholders

The Company recognises its legal and other obligations including its responsibility to act in good faith and with integrity whilst dealing with Company affairs. These responsibilities relate to all stakeholders including clients, customers, suppliers, government, financial institutions, shareholders and to the community as whole.

The Company is firmly committed to ethical business practices, a safe workplace and compliance with relevant laws including trade practices and fair dealing laws, consumer protection, privacy, employment law, occupational health and safety, equal employment opportunity, superannuation and environmental laws.

As indicated under Principle 3, the Company has established a Code of Conduct to guide compliance with legal and other obligations.

Income Statement

The above cash flow statements should be read in conjunction with the accompanying notes.

Notes to the Financial Statements

1. Summary of significant accounting policies

The principal accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all year presented, unless otherwise stated. The financial report includes separate financial statements for Jab Technologies Limited as an individual entity and the consolidated entity consisting of Jab Technologies Limited and its subsidiaries.

(a) Basis of preparation of year financial report

This general purpose financial report has been prepared in accordance with Australian equivalents to International Financial Reporting Standards (AIFRS), other authoritative pronouncements of the Australian Accounting Standards Board, Urgent Issues Group Interpretations and the *Corporations Act 2001*.

Compliance with IFRS

Australian Accounting Standards include AIFRS. Compliance with AIFRS ensures that the consolidated financial statements and notes of Jab Technologies Limited comply with International Reporting Standards (IFRS). The parent entity financial statements and notes also comply with IFRS except that it has elected to apply the relief provided to parent entities in respect of certain disclosure requirements contained in AASB 132 Financial Instruments: Presentation and Disclosures.

Historical cost convention

These financial statements have been prepared under the historical cost convention, as modified by the revaluation of available-for-sale financial assets, financial assets and liabilities (including derivative instruments) at fair value through profit or loss, certain classes of property, plant and equipment and investment property.

Critical accounting estimates

The preparation of financial statements in conformity with AIFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 3.

(b) Principles of consolidation

(i) Subsidiaries

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Jab Technologies Limited ("company" or "parent entity") as at 30 June 2007 and the results of all subsidiaries for the year then ended. Jab Technologies Limited and its subsidiaries together are referred to in this financial report as the Group or the consolidated entity.

Subsidiaries are all those entities (including special purpose entities) over which the Group has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

Notes to the Financial Statements (continued)

1. Summary of significant accounting policies (continued)

(i) Subsidiaries (continued)

The purchase method of accounting is used to account for the acquisition of subsidiaries by the Group (refer to note 1(h)).

Inter-company transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Investments in subsidiaries are accounted for at cost in the individual financial statements of Jab Technologies Limited.

(ii) Associates

Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for in the parent entity financial statements using the cost method and in the consolidated financial statements using the equity method of accounting, after initially being recognised at cost. The Group's investment in associates includes goodwill (net of any accumulated impairment loss) identified on acquisition.

The Group's share of its associates' post-acquisition profits or losses is recognised in the income statement, and its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividends receivable from associates are recognised in the parent entity's income statement, while in the consolidated financial statements they reduce the carrying amount of the investment.

When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

(iii) Joint Ventures

Joint venture operations

The proportionate interests in the assets, liabilities and expenses of a joint venture operation have been incorporated in the financial statements under the appropriate headings.

Joint venture entities

The interest in a joint venture partnership is accounted for in the consolidated financial statements using the equity method and is carried at cost by the parent entity. Under the equity method, the share of the profits or losses of the partnership is recognised in the income statement, and the share of movements in reserves is recognised in reserves in the balance sheet.

Profits or losses on transactions establishing the joint venture partnership and transactions with the joint venture are eliminated to the extent of the Group's ownership interest until such time as they are realised by the joint venture partnership on consumption or sale, unless they relate to an unrealised loss that provides evidence of the impairment of an asset transferred.

(c) Segment reporting

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different to those of other business segments. A geographical segment is engaged in providing products or services within a particular economic environment and is subject to risks and returns that are different from those of segments operating in other economic environments. The Company only operates in one segment being the Information Technology industry in Australia.

(d) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Australian dollars, which is Jab Technologies Limited's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement, except when deferred in equity as qualifying cash flow hedges and qualifying net investment hedges.

Translation differences on non-monetary items, such as equities held at fair value through profit or loss, are reported as part of the fair value gain or loss. Translation differences on non-monetary items, such as equities classified as available-for-sale financial assets, are included in the fair value reserve in equity.

Notes to the Financial Statements (continued)

1. Summary of significant accounting policies (continued)

(iii) Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- income and expenses for each income statement are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- all resulting exchange differences are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other currency instruments designated as hedges of such investments, are taken to shareholders' equity. When a foreign operation is sold or borrowings repaid a proportionate share of such exchange differences are recognised in the income statement as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

(e) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances and duties and taxes paid.

The following specific recognition criteria must also be met before revenue is recognised:

- provision of technology services – revenue from provision of technology services is recognised when the economic entity has performed services for the customer and billing for those services has occurred in accordance with contract terms and conditions; and
- interest – interest revenue is recognised on an accrual basis.

(f) Income tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the notional income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantively enacted for each jurisdiction. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to these temporary differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

Jab Technologies Limited and its wholly-owned Australian controlled entities have implemented the tax consolidation legislation.

(g) Leases

Leases of property, plant and equipment where the Group has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the lower of the fair value of the leased property and the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in other long term payables. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The interest element of the finance cost is charged to the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases are depreciated over the shorter of the asset's useful life and the lease term.

Notes to the Financial Statements (continued)

1. Summary of significant accounting policies (continued)

(g) Leases (continued)

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the income statement on a straight-line basis over the period of the lease.

Lease Income from operating leases is recognised in income on a straight-line basis over the lease term.

(h) Business Combinations

The purchase method of accounting is used to account for all acquisitions of assets (including business combinations) regardless of whether equity instruments or other assets are acquired. Cost is measured as the fair value of the assets given, shares issued or liabilities incurred or assumed at the date of exchange plus costs directly attributable to the acquisition. Where equity instruments are issued in an acquisition, the value of the instruments is their published market price as at the date of exchange unless, in rare circumstances, it can be demonstrated that the published price at the date of exchange is an unreliable indicator of fair value and that other evidence and valuation methods provide a more reliable measure of fair value. Transaction costs arising on the issue of equity instruments are recognised directly in equity.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill (refer to note 1(i)). If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in the income statement, but only after a reassessment of the identification and measurement of the net assets acquired.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

(i) Impairment of assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash generating units).

(j) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.

(k) Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost, less provision for doubtful debts. Trade receivables are due for settlement no more than 120 days from the date of recognition for land development and resale debtors, and no more than 30 days for other debtors.

Collectibility of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off. A provision for doubtful receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. The amount of the provision is recognised in the income statement.

(l) Non-current assets (or disposal groups) held for sale

Non-current assets (or disposal groups) are classified as held for sale and stated at the lower of their carrying amount and fair value less costs to sell if their carrying amount will be recovered principally through a sale transaction rather than through continuing use.

An impairment loss is recognised for any initial or subsequent write down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

Notes to the Financial Statements (continued)

1. Summary of significant accounting policies (continued)

(l) Non-current assets (or disposal groups) held for sale (continued)

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the balance sheet.

(m) Investments and other financial assets

The Group classifies its investments in the following categories: financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its investments at initial recognition and re-evaluates this designation at each reporting date.

(i) Financial assets at fair value through profit or loss

This category has two sub-categories: financial assets held for trading, and those designated at fair value through profit or loss on initial recognition. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term or if so designated by management. The policy of management is to designate a financial asset if there exists the possibility it will be sold in the short term and the asset is subject to frequent changes in fair value. Derivatives are also categorised as held for trading unless they are designated as hedges. Assets in this category are classified as current assets if they are either held for trading or are expected to be realised within 12 months of the balance sheet date.

(ii) Loans and receivables

Loans and receivables are non derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Group provides money, goods or services directly to a debtor with no intention of selling the receivable. They are included in current assets, except for those with maturities greater than 12 months after the balance sheet date which are classified as non-current assets. Loans and receivables are included in receivables in the balance sheet.

(iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Group's management has the positive intention and ability to hold to maturity.

(iv) Available-for-sale financial assets

Available-for-sale financial assets, comprising principally marketable equity securities, are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the balance sheet date.

Purchases and sales of investments are recognised on trade-date - the date on which the Group commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

Available-for-sale financial assets and financial assets at fair value through profit and loss are subsequently carried at fair value. Loans and receivables and held-to-maturity investments are carried at amortised cost using the effective interest method. Realised and unrealised gains and losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category are included in the income statement in the period in which they arise. Unrealised gains and losses arising from changes in the fair value of non monetary securities classified as available-for-sale are recognised in equity in the available-for-sale investments revaluation reserve. When securities classified as available-for-sale are sold or impaired, the accumulated fair value adjustments are included in the income statement as gains and losses from investment securities. The fair values of quoted investments are based on current bid prices. If the market for a financial asset is not active (and for unlisted securities), the Group establishes fair value by using valuation techniques. These include reference to the fair values of recent arm's length transactions, involving the same instruments or other instruments that are substantially the same, discounted cash flow analysis, and option pricing models refined to reflect the issuer's specific circumstances.

Notes to the Financial Statements (continued)

1. Summary of significant accounting policies (continued)

(m) Investments and other financial assets (continued)

(iv) Available-for-sale financial assets (continued)

The Group assesses at each balance date whether there is objective evidence that a financial asset or group of financial assets is impaired. In the case of equity securities classified as available for sale, a significant or prolonged decline in the fair value of a security below its cost is considered in determining whether the security is impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit and loss - is removed from equity and recognised in the income statement. Impairment losses recognised in the income statement on equity instruments are not reversed through the income statement.

(n) Fair value estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the balance sheet date. The quoted market price used for financial assets held by the Group is the current bid price; the appropriate quoted market price for financial liabilities is the current ask price.

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance date. Quoted market prices or dealer quotes for similar instruments are used for long-term debt instruments held. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments. The fair value of interest-rate swaps is calculated as the present value of the estimated future cash flows. The fair value of forward exchange contracts is determined using forward exchange market rates at the balance sheet date.

The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

(o) Property, plant and equipment

Land and buildings (except for investment properties) are shown at fair value, based on periodic, but at least triennial, valuations by external independent valuers, less subsequent depreciation for buildings. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. All other property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost may also include transfers from equity of any gains/losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Increases in the carrying amounts arising on revaluation of land and buildings are credited to other reserves in shareholders' equity. To the extent that the increase reverses a decrease previously recognised in profit or loss, the increase is first recognised in profit and loss. Decreases that reverse previous increases of the same asset are first charged against revaluation reserves directly in equity to the extent of the remaining reserve attributable to the asset; all other decreases are charged to the income statement.

Land is not depreciated. Depreciation on other assets is calculated using the straight line method to allocate their cost or re-valued amount, net of their residual values, over their estimated useful lives.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. Depreciation of plant and equipment has been over individual useful life of 5-10 years.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 1(i)).

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the income statement. When re-valued assets are sold, it is Group policy to transfer the amounts included in other reserves in respect of those assets to retained earnings.

(p) Intangible assets

Expenditure on research activities, undertaken with the prospect of obtaining new technical knowledge and understanding, is recognised in the income statement as an expense when it is incurred.

Notes to the Financial Statements (continued)

1. Summary of significant accounting policies (continued)

(q) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

(r) Provisions

Provisions for legal claims and service warranties are recognised when: the Group has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

(s) Employee benefits

(i) Wages and salaries, annual leave and sick leave

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and measured at the rates paid or payable.

(ii) Long service leave

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

(iii) Share-based payments

Where share-based compensation benefits are provided to employees via an employee option plan and an employee share scheme, the following apply:

Shares options granted before 7 November 2002 and/or vested before 1 January 2005

No expense is recognised in respect of these options. The shares are recognised when the options are exercised and the proceeds received allocated to share capital.

Shares options granted after 7 November 2002 and vested after 1 January 2005

The fair value of options granted is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the employees become unconditionally entitled to the options.

Shares options granted after 7 November 2002 and vested after 1 January 2005 (continued)

The fair value at grant date is independently determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the vesting and performance criteria, the impact of dilution, the non-tradeable nature of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk-free interest rate for the term of the option.

The fair value of the options granted excludes the impact of any non-market vesting conditions (for example, profitability and sales growth targets). Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable. At each balance sheet date, the entity revises its estimate of the number of options that are expected to become exercisable. The employee benefit expense recognised each period takes into account the most recent estimate.

Upon the exercise of options, the balance of the share-based payments reserve relating to those options is transferred to share capital.

The market value of shares issued to employees for no cash consideration under the employee share scheme is recognised as an employee benefits expense with a corresponding increase in equity when the employees become entitled to the shares.

(t) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options, or for the acquisition of a business, are included in the cost of the acquisition as part of the purchase consideration.

Notes to the Financial Statements (continued)

1. Summary of significant accounting policies (continued)

(u) Borrowing costs

Borrowing costs are recognised as expenses in the period in which they are incurred except to the extent they are included in the costs of qualifying assets.

(v) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

(w) Goods and services tax

Revenues, expenses and assets are recognised net of the amount of good and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Tax Office (ATO). In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of the item of expense. Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the ATO is included as a current asset or liability in the Statement of Financial Position. Cash flows arising from operating activities are included in the statement of cash flows on a net basis. The GST component of cash flows arising from investing and financing activities which are recoverable from, or payable to the ATO, are classified in operating cash flows.

(x) Financial instrument transaction costs

The Group has taken the exemption available under AASB 1 to apply AASB 132 and AASB 139 from 1 July 2005. The Group has applied previous Australian GAAP (AGAAP) in the comparative information on financial instruments within the scope of AASB 132 and AASB 139. Under previous AGAAP transaction costs were excluded from the amounts disclosed in the financial statements. Under AIFRS such costs are included in the carrying amounts. At the date of transition to AASB 132 and AASB 139 the adjustment to carrying amounts for the Group was immaterial.

(y) Rounding of amounts

The company is of a kind referred to in Class order 98/0100, issued by the Australian Securities and Investments Commission, relating to the "rounding off" of amounts in the financial report. Amounts in the financial report have been rounded off in accordance with that Class Order to the nearest dollar.

(z) Going concern

This financial report has been prepared on a going concern basis, which contemplates the continuity of normal business activities and realisation of assets and discharge of liabilities in the ordinary course of business.

The company and consolidated entity have incurred a loss from ordinary activities after income tax of \$221,469 for the year ended 30 June 2007 (2006: loss of \$515,903). The company and consolidated entity were also in a net deficit position of \$222,681 as at 30 June 2007 (2006: net assets \$105,695). As a result of the financial position of the company outlined above, there is significant uncertainty whether the company and consolidated entity will continue as a going concern and, therefore, whether it will realise its assets and settle its liabilities and commitments in the normal course of business and at the amounts stated in the financial report.

The continuation of the company and consolidated entity as a going concern is dependent upon their ability to achieve the following:

- Obtaining additional facilities, funding or capital from financiers, shareholders, directors and/or related parties to enable the company and consolidated entity to achieve a sufficient working cash flow level.
- The generation of future profits by the major underlying business.

In the event that the company or consolidated entity does not achieve its objectives, there is significant uncertainty whether the company or consolidated entity will continue as a going concern and, therefore, whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial statements. The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts nor to the amounts and classification of liabilities that might be necessary should the company and consolidated entity not continue as going concerns.

Notes to the Financial Statements (continued)

2. Financial risk management

The Group's activities expose it to a variety of financial risks; market risk (including price risk), credit risk, liquidity risk and cash flow risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group. The liquidity risk has been outlined in note 1z.

The Group has no significant concentrations of credit risk.

Risk management is carried out under policies approved by the Board of Directors. The Board provides principles for overall risk management, as well as policies covering specific areas.

As the Group has no significant interest-bearing assets, long term borrowings and significant cash assets, the Group's income and operating cash flows are not materially exposed to changes in market interest rates.

3. Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results.

(a) Critical accounting estimates and assumptions

Impairment of Assets

The Group tests annually whether various assets have suffered any impairment, in accordance with the accounting policy stated in note 1.

Income Taxes

The Group is subject to income taxes in Australia and jurisdictions where it has foreign operations. Significant judgement is required in determining the worldwide provision for income taxes. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The Group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred tax provisions in the period in which such determination is made.

(b) Critical judgements in applying entity's accounting policies

There were no critical judgements made except for the treatment of directors' options which are outlined in Note 22 Key Management Personnel Disclosures.

4. Segment reporting

The main product of Jab Technologies Limited is called EZBiZ. Jab Technologies and its controlled entities have not presented a segment report as the group operates in a single business and geographical segment.

Benefit of research and development tax offset	(41,989)	(72,340)	(41,989)	(72,340)
Income tax expense/(revenue)	(41,989)	(72,340)	(41,989)	72,340

The income tax benefit has resulted from a research and development tax offset received from the Australian Taxation Office.

Jab Technologies Limited and its wholly-owned Australian controlled entities have implemented the tax consolidation legislation as of 4 September 2004. The accounting policy in relation to this legislation is set out in note 1(f).

On adoption of the tax consolidation legislation, the entities in the tax consolidated group entered into a tax sharing agreement which, in the opinion of the directors, limits the joint and several liability of the wholly-owned entities in the case of a default by the head entity, Jab Technologies Limited.

The entities have also entered into a tax funding agreement under which the wholly-owned entities fully compensate Jab Technologies Limited for any current tax payable assumed and are compensated by Jab Technologies Limited for any current tax receivable and deferred tax assets relating to unused tax losses or unused tax credits that are transferred to Jab Technologies Limited under the tax consolidation legislation. The funding amounts are determined by reference to the amounts recognised in the wholly-owned entities' financial statements.

The amounts receivable/payable under the tax funding agreement is due upon receipt of the funding advice from the head entity, which is issued as soon as practicable after the end of each financial year. The head entity may also require payment of interim funding amounts to assist with its obligations to pay tax instalments. The funding amounts are recognised as current inter-company receivables or payables.

Jab Technologies Limited has recognised no tax consolidation distribution from a wholly-owned tax consolidated entity.

Issue Costs	-	(10,766)	-	(192,034)
On issue at end of the year	14,862,911	2,205,038	14,862,911	2,215,805

Options to acquire issued capital

Each option entitles the holder to purchase one share. The names of all persons who currently hold share options, granted at any time, are entered in the register kept by the Company, pursuant to Section 168 of the Corporations Act 2001, which may be inspected free of charge. Persons entitled to exercise these options have no right, by virtue of the options, to participate in any share issue by the parent entity or any other body corporate.

Movement in the numbers of options to acquire share capital are as follows:

	Exercise Price 20 cents	Number of Options	
		2007	2006
On issue at the beginning of the year		8,865,029	6,000,000
Issued during the year		-	2,865,029
On issue at the end of the year		8,865,029	8,865,029

Expiry Date:

31 December 2009 convertible at 20 cents (JAB01)

16. Option holders' equity

	PARENT ENTITY	
	2007 \$	2006 \$
Restatement of total equity at beginning of financial year	96,140	119,396
Loss effect of market condition not satisfied	(96,140)	(23,256)
Option holders' equity at end of financial year		96,140

As market conditions for the vesting of these options were not attained, and the persons entitled to these options have left the Company the Option Holders Equity has been written back to the profit and loss account, net of prepayments carried in debtors.

Notes to the Financial Statements (continued)

The Company has taken of the relief provided by ASIC Class Order 06/50 and has transferred the detailed remuneration disclosures to the Directors' Report. The relevant information can be found in sections A-D of the remuneration report on pages 6 – 10.

Equity instrument disclosures to key management personnel

(i) Options provided as remuneration and shares issued on exercise of such options

Details of options provided as remuneration together with the terms and conditions of the options can be found in section D of the Remuneration report of Directors' Report on page 9.

Notes to the Financial Statements (continued)

20. Key management personnel disclosures (continued)

Option Holdings

The number of options over ordinary shares in the company had during the financial year by each Director of Jab Technology Limited and other key management personnel of the Group, including their personally related parties are set out below:-

Name:		Balance at the start of the year	Granted during the year as compensation	Sold during the year	Balance at the end of the year	Vested and exercisable at the end of the year
Directors:						
R. Murdoch	2007	190,268	-	(190,628)	-	-
	2006	190,268	-	-	190,268	190,268
S. Stark	2007	40,000	-	(40,000)	-	-
	2006	40,000	-	-	40,000	40,000
S. Ioannides	2007	-	-	-	-	-
	2006	-	-	-	-	-
G Mullins	2007	-	-	-	-	-
E Jones	2007	-	-	-	-	-
K Day	2007	-	-	-	-	-

There were no other key management personnel during the year

It is noted that the options held by R. Murdoch were the result of an investment in the Company and did not result for a remuneration package.

Share Holdings

The number of shares in the Company held during the financial year by each Director of Jab Technologies Limited and other key management personnel of the Group, including their personally related parties are set out below. There are no shares granted during the period as compensation.

Name		Balance at the start of the year	Sold during the year	Balance at end of the year
Directors:				
R. Murdoch	2007	1,315,750	(1,315,750)	-
	2006	1,268,259	47,491	1,315,750
S. Stark	2007	145,000	(145,000)	-
	2006	145,000	-	145,000
S. Ioannides	2007	583,751	(583,751)	-
	2006	583,571	-	583,751
G Mullins	2007	-	-	-
E Jones	2007	-	-	-
K Day	2007	-	-	-

There were no other key management personnel during the year.

Other director transactions

During the year Murdoch Geosciences Pty Ltd, a company associated with Mr. Robert Murdoch, charged \$27,500 (2006 - \$16,919) to the entity for his consultancy services.

During the year Jaz Software Pty Ltd, a company associated with Mr. Stephen Ioannides, invoiced \$8,560 (2006 - \$127,988) to the entity for his consultancy services provided.

During the year Sean Stark, invoiced \$24,200 (2006 - \$32,650) to the entity for his consultancy services provided.

21. Remuneration of auditors

During the year the auditors of the parent company and its related practices earned the following remuneration:

Pitcher Partners

Audit or review of financial reports of the entity or any entity in the consolidated entity (2007 - half-year accounts only)

Taxation and other services

	CONSOLIDATED		PARENT ENTITY	
	2007	2006	2007	2006
	\$	\$	\$	\$
Audit or review of financial reports of the entity or any entity in the consolidated entity (2007 - half-year accounts only)	7,000	10,605	7,000	10,605
Taxation and other services	11,744	18,680	11,744	18,880
	18,744	29,285	18,744	29,285
Northstar Accountants (2007 - year end audit only)	5,000	-	5,000	-

Notes to the Financial Statements (continued)

22. Contingent assets and liabilities

(a) Contingent liabilities

The parent entity and Group are not aware of any contingent liabilities that need to be disclosed as at 30 June 2007.

(b) Contingent assets

The parent entity and Group are not aware of any contingent assets that need to be disclosed as at 30 June 2007.

23. Investments in controlled entities as at 30 June 2007

	Country of Incorporation and Principal Country of Operation	Main Business	Percentage Ownership	
			2007 %	2006 %
Controlled entities				
Jab Creative Pty Ltd	Australia	Dormant	100%	100%
RadioCity.com.au Pty Ltd	Australia	Dormant	100%	100%

The financial years of all controlled entities are the same as that of the parent. All controlled entities operate solely in their place of incorporation.

24. Employee benefits

	CONSOLIDATED		PARENT ENTITY	
	2007 \$	2006 \$	2007 \$	2006 \$
Employee benefit and related on-cost liabilities				
Included in trade creditors	1,288	-	1,288	-
Included in accruals	-	1,342	-	1,342
Provision for employee benefits – current	-	3,791	-	3,791
Provision for employee benefits – non-current	-	-	-	-
Aggregate employee benefit and related party on-costs liabilities	1,288	5,133		5,133

As explained in note 1(s) amounts for long service leave that are expected to be settled more than 12 months from the reporting date are measured at their present values. The average number of employees during the year was 0 (2006 – 2).

Notes to the Financial Statements (continued)

25. Reconciliation of Profit from ordinary activities after income tax to net cash flow (used in) operating activities

(a) Reconciliation of cash

For the purpose of the Statements of Cash Flows, cash includes cash on hand and in banks and deposits at call, net of bank overdrafts. Cash at the end of the year as shown in the Statements of Cash Flows is reconciled to the related items in the Statement of Financial position as follows:

	CONSOLIDATED		PARENT ENTITY	
	2007	2006	2007	2006
	\$	\$	\$	\$
Cash at bank and on hand (Note 7)	9,428	123,598	9,428	123,598
	9,428	123,598	9,428	123,598

The bank interest rate for the period for cash at bank was 5.25% (2006: 5.25%).

(b) Reconciliation of net cash absorbed by operating activities to operating loss after income tax:

Net profit (loss)	(221,489)	(515,903)	(221,489)	(564,988)
Adjustments for non-cash income and expense items				
Depreciation and amortisation of non current assets	15,339	33,034	15,339	33,034
Debt forgiveness	(60,748)	-	(60,748)	-
Loss on sale of non current assets	5,725	-	5,725	-
Directors options	(38,000)	38,000	(38,000)	38,000
Changes in assets and liabilities:				
(Increase)/decrease in assets:				
Decrease/(increase) in trade and other receivables	31,184	(20,418)	31,184	(20,418)
Decrease/(increase) in prepayments and other assets	-	42,071	-	42,071
Decrease/(increase) in other assets	-	4,631	-	1,430
Decrease/(increase) in other financial assets	-	-	-	52,286
(Decrease)/increase in liabilities:				
(Decrease)/increase in creditors and accruals	(12,229)	15,061	(12,229)	15,061
(Decrease)/increase in employee entitlements	(3,791)	(3,323)	(3,791)	(3,323)
Net operating cash flows	(283,989)	(406,847)	(283,989)	(406,847)

26. Franking amount

The balance in the franking account at year end for parent account and economic entity was nil.

27. Events occurring after the balance sheet date

On 18 September 2007 the Company announced that it had executed a Share Sale Deed to acquire a controlling interest in VentureAxess Limited. The consideration offered under this transaction is four (4) Jab Technologies Limited fully paid ordinary shares and two (2) December 2009 share options for every five (5) shares in VentureAxess Limited (valuing each VentureAxess Limited ordinary share at \$0.124), and two (2) Jab Technologies Limited fully paid ordinary shares and two (2) Jab December 2009 share options for every fifteen (15) VentureAxess Limited share options. A further 2,500,000 ordinary shares in VentureAxess Limited are being acquired by the issue of \$300,000 of Loan Notes by the Company.

Notes to the Financial Statements (continued)

28. Earnings per share

	CONSOLIDATED	
	2007	2006
Basic earnings/(loss) per share (cents per share)	(1.49)	(3.61)
Diluted earnings/(loss) per share (cents per share)	(1.49)	(3.61)
Earnings used in calculating of basic/(loss) earnings per share	(221,469)	(515,903)
Earnings used in calculating of diluted earnings/(loss) per share	(221,489)	(515,903)

	CONSOLIDATED	
	2007 Number	2006 Number
Weighted average number of shares used as the denominator		
Weighted average number of ordinary shares used in the dominator in calculating basic earnings/(loss) per share	14,862,911	14,302,329
Weighted average number of ordinary shares used in the dominator in calculating diluted earnings/(loss) per share	14,862,911	14,302,329

At the end of the year, the economic entity had 8,865,029 options on issue with an exercise price of 20 cents expiring 31 December 2009. The options have not been included in the diluted weighted earning/(loss) per share calculation as Jab Technologies Limited's share price has been trading well below the exercise price of 20 cents per share.

29. Related party transactions

(a) Parent entity

The ultimate parent entity is VentureAcess Capital Limited

(b) Subsidiary

Interests in subsidiaries are set out in note 23.

(c) Key management personnel

Disclosures relating to key management personnel are set out in note 20.

(d) Transactions with related parties

The following transactions occurred with related parties:

	CONSOLIDATED		PARENT ENTITY	
	2007 \$	2006 \$	2007 \$	2006 \$
Superannuation contributions				
Contribution to superannuation funds on behalf of employees	-	7,437	-	7,437

There were no loans to or from related parties at the end of the financial year other than as set out in Note 14.

Notes to the Financial Statements (continued)

In the Directors' opinion:

- a) the financial statements and notes set out in pages 18 to 43 are in accordance with the Corporations Act 2001 including:
 - I. Complying with Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements; and
 - II. Giving a true and fair view of the Company's and consolidated entity's financial position as at 30 June 2007 and of their performance, as represented by the results of their operations, changes in equity and their cash flows, for the financial year ended on that date; and
- b) there are reasonable grounds to believe that the Company will be able to pay its debts as when they become due and payable; and
- c) the audited remuneration disclosures set out on pages 6 to 11 of the Directors' Report comply with Accounting Standards AASB 124 *Related Party Disclosures and the Corporations Regulations 2001*.

This declaration is made in accordance with a resolution of Directors.

Geoff Mullins
Chairman

Sydney, 31 October 2007

JAB TECHNOLOGIES LIMITED
ABN 42 087 426 953
INDEPENDENT AUDITOR'S REPORT TO
THE MEMBERS
OF JAB TECHNOLOGIES LIMITED

Report on the Financial Report

We have audited the accompanying financial report of JAB Technologies Limited (the Company) and JAB Technologies Limited and Controlled Entities (the consolidated entity), which comprises the balance sheet as at 30 June 2007 and the income statement, statement of changes in equity and cash flow statement for the year ended on that date, a summary of significant accounting policies and other explanatory notes and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporation Act 2001*. This responsibility includes establishing and maintaining internal control relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstance.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement and that the remuneration disclosures in the directors' report comply with Accounting Standard AASB 124.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of expressing an opinion of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report and the remuneration disclosures in the directors' report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, provided to the directors of JAB Technologies Limited on 31 October, 2007 would be in the same terms if provided to the directors as at the date of this auditor's report.

Auditor's opinion

In our opinion:

- a. the financial report of JAB Technologies Limited and JAB Technologies Limited and Controlled Entities is in accordance with the *Corporations Act 2001*, including:
 - i. giving a true and fair view of the company's and consolidated entity's financial position as at 30 June 2007 and of their performance for the year ended on that date; and
 - ii. complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001;
- b. Other mandatory financial reporting requirements in Australia.

Inherent Uncertainty Regarding Going Concern

Without qualification to the opinion expressed above, attention is drawn to the following matter. As indicated in Note 1 (z) to the financial statements, there is significant uncertainty whether the Company and consolidated entity will continue as a going concern. Please see Note 1 (z) to the financial statements for an explanation.
