## **NSX – GENERAL ANNOUNCEMENT**

### **MOUNT ROMMEL MINING LTD**

Those investors with an interest in the activities of this Company will find a “show and tell” sequence of illustrations on the website of the Company – [www.mountrommel.com](http://www.mountrommel.com)

Drilling is in progress at Allendale

The objective of the “show and tell” is this:

- If the gold from the historic mines of Allendale really is itself the anomalous expression of the largest privately owned goldfield ever operated in Victoria, then a way must be found to efficiently examine the sub surface.
- If fresh life is to be infused into exploration it becomes necessary to break new ground in exploration methods – to get right out of the older way of doing things.
- Costs to investors fall if the methods adopted take us more directly to a zone of interest.
- Shareholders need to be able to appreciate the nature of circumstances at the places being explored – best provided by photos, and descriptions, as posted on the Company web site.

F.L. Hunt  
Chairman
