

FOR IMMEDIATE RELEASE

ZODIAC ENTERS INTO LICENSING AGREEMENT TO MARKET RANGE OF PHYTO-PHARMACEUTICAL HEALTH PRODUCTS INTERNATIONALLY

Sydney, Australia and Kiev, Ukraine – August 28, 2008 - Zodiac Capital Limited – a boutique investment banking group publicly listed on the NSX in Australia ("ZOD") advises that the Company has today entered into a Licensing Agreement with Ekomed LLC, a developer, marketer and manufacturer of over 26 herbal phyto-pharmaceutical health products.

The Licensing Agreement provides for Zodiac Capital, through a special purpose vehicle, to establish and introduce marketing relationships and product initiatives globally that will expand Ekomed's domestic sales and distribution network to the international markets.

Mr. Pylypchuk, The CEO and Scientific Director of the Company commented on this occasion:

"As we continue to witness the enormous plant biodiversity that one can exploit if we know where to look, the future complexity and synergy of natural medicines will be better elucidated – in a future where science and nature are already becoming more reunited. Millions of Ukrainians already know about the benefits of our products and we hope that through working with our new Australian partner we will realise our goal to provide affordable and safe phytoproducts beyond our Ukrainian borders."

Dr. Allen Bain, a Director of Zodiac Capital stated:

"We look forward to promoting the natural Ekomed herbal products with their reputation supported by solid science and extensive clinical research. Ekomed products have been reported as safe and effective in peer-reviewed medical journals. A successful Phase II trial of botanical immunomodulator Dzherelo in patients with dual HIV and TB infection was published earlier this year."

About Ekomed LLC:

Ekomed LLC is a leading bio-pharmaceutical company located in Kiev, Ukraine and primarily engaged in the research, production, and sales of herbal products.

Over 15 years of intensive research and clinical trials have culminated in the approval of the whole range of Ekomed natural, functional supplements by the Ukraine Ministry of Health. Basic and clinical studies conducted at more than 40 research institutes and hospitals in Ukraine have confirmed the beneficial properties of Ekomed's phytoconcentrates as well as their safety and effectiveness in alleviating various ailments. The Company pioneered botanical products in the Ukraine by setting the standards for regulation of herbal extracts and developing the standardized extracts and ingredients for their own range of herbal nutraceuticals and natural medicinal products. The Company's main products are classified as botanical immunomodulators and functional foods and have proven to be beneficial for conditions including: arthritis, allergies, anaemia, autoimmune disorders, AIDS (as adjuvant immunotherapy), diabetes, bronchitis, impotence, inflammation, varicose veins and haemorrhoids, menopause, obesity, excess of cholesterol, hepatitis, tuberculosis, influenza and many others.
