## **Notes to the financial statements**

### **Note 1                      Basis of preparation**

The general purpose financial report for the reporting period ended 30 June 2008 has been prepared in accordance with Australian Accounting Standard 134 "Interim Financial Reporting", Australian Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board.

This preliminary report does not include all the notes of the type normally included in an annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the entity as the full financial report.

Accordingly, this interim financial report is to be read in conjunction with any public announcements made by Vietnam Emerging Capital Limited during the reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

#### **Going concern**

The report has been prepared on a going concern basis which contemplates the continuity of normal trading activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

The company made an operating loss of \$000,000 during the year ended 30 June 2008.

Notwithstanding that there is significant uncertainty as to the outcome of this capital raising, the directors believe that it is appropriate to prepare the financial report on a going concern basis as the directors are of the opinion that the capital raising noted above is achievable.

#### **Cash and cash equivalents**

Cash and cash equivalents comprise cash balances and call deposits.

#### **Trade and other receivables**

Trade and other receivables are stated at their amortised cost less impairment losses.

# VIETNAM EMERGING CAPITAL LIMITED

A.C.N. 123 981 537

---

## **Note 1                      Basis of preparation of preliminary final report (continued)**

### **Impairment**

The carrying amounts of the entity's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in the income statement, unless an asset has previously been re-valued, in which case the impairment loss is recognised as a reversal to the extent of that previous revaluation with any excess recognised through profit or loss.

The recoverable amount of assets is the greater of their net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

### **Trade and other payables**

Trade and other payables are stated at their amortised cost, are non-interest bearing and are normally settled within 60 days.

### **Taxation**

#### **Income tax**

Income tax on the profit or loss for the period comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The initial recognition of assets or liabilities that affect neither accounting nor taxable profit and differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future are temporary differences are not provided for. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

# VIETNAM EMERGING CAPITAL LIMITED

A.C.N. 123 981 537

---

## **Note 1                      Basis of preparation of preliminary final report (continued)**

### **Goods and services tax**

Revenue, expenses and assets are recognised net of the amount of goods and services tax ('GST'), except where the amount of GST incurred is not recoverable from the taxation authority. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the taxation authority is included as a current asset or liability in the statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis. The GST components of cash flows arising from investing and financing activities which are recoverable from, or payable to, the taxation authority are classified as operating cash flows.

### **Share capital transaction costs**

Transaction costs of an equity transaction are accounted for as a deduction from equity, net of any related income tax benefit.

### **Accounting period**

The results for the period ended 30 June 2008 cover the period from 16 February 2007 (being the date of incorporation) to 30 June 2008.

### **Contingent Liabilities**

There have been no changes in contingent liabilities or contingent assets since date 30 June 2008.

### **Events subsequent to balance date**

Other than disclosed above, there have been no subsequent events that would have a material impact on the financial report for the period ended 30 June 2008.

5. If the accounts have been or are being audited or subject to review and the audit report is not attached, details of any qualifications are attached/will follow immediately they are available\*

*"Uncertainty Regarding Continuation as a Going Concern"*

Without qualifying our conclusion, we draw attention to Note 1 in the financial report, which indicates that the company incurred a net loss of \$987,396 during the period ended 30 June 2008. Note 1 also states the directors' reasons for the financial report being prepared on a going concern basis. Should the company not achieve the matters as set forth in Note 1 there is significant uncertainty about the company's ability to continue as a going concern."

6. The *issuer* does not have a formally constituted audit committee.

## Notes

1. **For announcement to the market** The percentage changes referred to in this section are the percentage changes calculated by comparing the current period's figures with those for the previous corresponding period. Do not show percentage changes if the change is from profit to loss or loss to profit, but still show the amount of the change up or down. If changes in accounting policies or procedures have had a material effect on reported figures, do not show either directional or percentage changes in profits. Explain the reason for the omissions in the note at the end of the announcement section. *Issuers* are encouraged to attach notes or fuller explanations of any significant changes to any of the items in page 1. The area at the end of the announcement section can be used to provide a cross reference to any such attachment.
2. **True and fair view** If this statement does not give a true and fair view of a matter (for example, because compliance with an Accounting Standard is required) the *issuer* must attach a note providing additional information and explanations to give a true and fair view.
3. **Consolidated statement of financial performance**
  - Item 1.1 The definition of "revenue" is set out in *AASB 118: Revenue*
  - Item 1.6 This item refers to the total tax attributable to the amount shown in *item 1.5*. Tax includes income tax and capital gains tax (if any) but excludes taxes treated as expenses from ordinary activities (eg. fringe benefits tax).
4. **Income tax** If the amount provided for income tax in this statement differs (or would differ but for compensatory items) by more than 15% from the amount of income tax *prima facie* payable on the profit before tax, the issuer must explain in a note the major items responsible for the difference and their amounts. The rate of tax applicable to the franking amount per dividend should be inserted in the heading for the column "Franking rate applicable" for items in *section 9*.
5. **Consolidated statement of financial position**

**Format** The format of the consolidated statement of financial position should be followed as closely as possible. However, additional items may be added if greater clarity of exposition will be achieved, provided the disclosure still meets the requirements of *AASB 134: Interim Financial Reporting*, and *AASB 101: Presentation of Financial Statements*. Banking institutions, trusts and financial institutions may substitute a clear liquidity ranking for the Current/Non-Current classification.

**Basis of revaluation** If there has been a material revaluation of non-current assets (including investments) since the last annual report, the *issuer* must describe the basis of revaluation adopted. The description must meet the requirements of *AASB 116: Property, Plant and Equipment*. If the *issuer* has adopted a procedure of regular revaluation, the basis for which has been disclosed and has not changed, no additional disclosure is required.
6. **Consolidated statement of cash flows** For definitions of "cash" and other terms used in this statement see *AASB 107: Cash Flow Statements*. *Issuers* should follow the form as closely as possible, but variations are permitted if the *directors* (in the case of a trust, the management company) believe that this presentation is inappropriate. However, the

# VIETNAM EMERGING CAPITAL LIMITED

A.C.N. 123 981 537

---

presentation adopted must meet the requirements of *AASB 107*.

7. **Net tangible asset backing** Net tangible assets are determined by deducting from total tangible assets all claims on those assets ranking ahead of the ordinary *securities* (i.e. all liabilities, preference shares, outside equity interests, etc). Mining *issuers* are *not* required to state a net tangible asset backing per ordinary *security*.
8. **Gain and loss of control over entities** The gain or loss must be disclosed if it has a material effect on the consolidated financial statements. Details must include the contribution for each gain or loss that increased or decreased the *issuer's* consolidated operating profit (loss) after tax by more than 5% compared to the previous corresponding period.
9. **Equity accounting** If an *issuer* adopts equity accounting, no comparative equity accounting figures are required in the first period following its adoption.
10. **Rounding of figures** This statement anticipates that the information required is given to the nearest \$1,000. However, an *issuer* may report exact figures, if the \$A'000 headings are amended. If an *issuer* qualifies under *ASIC* Class Order 98/0100 dated 15 July 2004, it may report to the nearest million dollars, or to the nearest \$100,000, if the \$A'000 headings are amended.
11. **Comparative figures** Comparative figures are to be presented in accordance with *AASB 101: Presentation of Financial Statements* or *AASB 134: Interim Financial Reporting* as appropriate and are the unadjusted figures from the last annual or half year report as appropriate. However, if the previously reported figures are adjusted to achieve greater comparability, in accordance with an accounting standard or other reason, a note explaining the adjustment must be included with this statement. If no adjustment is made despite a lack of comparability, a note explaining the position should be attached.
12. **Additional information** An *issuer* may disclose additional information about any matter, and must do so if the information is material to an understanding of the financial statements. The information may be an expansion of the material contained in this statement, or contained in a note attached to the statement. The requirement under the listing rules for an *issuer* to complete this statement does not prevent the *issuer* issuing statements more frequently. Additional material lodged with the *ASIC* under the *Corporations Act* must also be given to the *Exchange*. For example, a *directors'* report and declaration, if lodged with the *ASIC*, must be given to the *Exchange*.
13. **Accounting Standards** the *Exchange* will accept, for example, the use of International Accounting Standards for *foreign issuers*. If the standards used do not address a topic, the Australian standard on that topic (if one exists) must be complied with.
14. **Borrowing corporations** This statement may be able to be used by an *issuer* required to comply with the *Corporations Act* as part of its half yearly financial statements if prepared in accordance with Australian Accounting Standards.
15. **Details of expenses** *AASB 101: Presentation of Financial Statements* requires disclosure of expenses according to either their nature or function. For foreign entities, there are similar requirements in other accounting standards accepted by the *Exchange*. *Issuers* must disclose details of expenses using the layout (by nature or function) employed in their accounts.

---

The information in *items 7.1 - 7.2* may be provided in an attachment to Appendix 3

**Relevant items** *AASB 101: Presentation of Financial Statements* requires the separate disclosure of specific revenues and expenses which are of a size, nature or incidence that disclosure is *relevant*, as defined in *AASB 101*, in explaining the financial performance of the *issuer*. There is an equivalent requirement in *AASB 134: Interim Financial Reporting*. For foreign entities, there are similar requirements in other accounting standards accepted by the *Exchange*.

16. **Dollars** If reporting is not in A\$, all references to \$A must be changed to the reporting currency. If reporting is not in thousands of dollars, all references to "000" must be changed to the reporting value.

17. **Discontinuing operations**

Entities must either provide a description of any significant activities or events relating to discontinuing operations equivalent to that required by *paragraph 7.5 (g) of AASB 134: Interim Financial Reporting*, or, the details of discontinuing operations they are required to disclose in their accounts in accordance with *AASB 5: Non-current Assets for Sale and Discontinued Operations*

In any case, the information may be provided as an attachment to this Appendix 3
