RESOLUTION 4

Issue of Securities

Ratification of prior issue of Shares and Options

The Company has issued 375,000 ordinary shares at an issue price of \$0.10 per share with attaching free 1:1 VBLOD Options totalling 375,000 VBLOD options and 1,500,495 ordinary share issued without free attaching option at \$0.10 per share. The Options are exercisable on or before 30 June 2013 at an exercise price of \$0.20 each as set out in the Summary of Option Terms below.

NSX Listing Rule 6.25

NSX Listing Rule 6.25 provides that without the approval of holders of ordinary securities, an entity must not issue or agree to issue more equity securities than the number calculated according to the formula set out in NSX Listing Rule 6.25.

In effect, the rule requires that the approval of the holders of ordinary securities be obtained in respect of any proposal to issue more equity securities in any 12 month period than the number which exceeds 15% of the number of fully paid ordinary securities on issue 12 months before the date of the issue or agreement (as determined in accordance with the formula set out in NSX Listing Rule 6.25).

Explanatory Statement

NSX Listing Rule 6.25 states an issue of securities made without approval under NSX Listing Rule 6.25 is treated as having been made with approval for the purpose of NSX Listing Rule 6.25 if the issue did not breach NSX Listing Rule 6.25 (i.e. was within the 15% limit) and shareholders subsequently approve it.

The issue of the Shares under Resolution 4 did not breach NSX Listing Rule 6.25. In order to restore the Company's future 15% placement capacity, it is proposed the Shareholders ratify the issue of Shares. Ratification of that issue provides the Company with flexibility in capital management and allows the Company to raise further funds or make further acquisitions, if required.

Summary of Option Terms

A summary of the terms and conditions of Vet Biotechnology Limited's Options to be granted under resolution 4 is as follows:

- The Options expire at 5.00 pm Adelaide time on 30 June 2013. Any Option not exercised before that time automatically lapses;
- any portion of the total number of Options held may be exercised by the holder;
- each Option carries the right to subscribe for one share, subject to the adjustment provisions which are set out below;
- Subject to the adjustment provisions which are set out below, the exercise price of the Options is \$0.20 per share, payable in full on application. Shares will be credited as a fully paid share on payment of the exercise price;
- Options are fully transferable, subject to the same restrictions which apply to shares;
- Options are exercisable by the delivery to the registered office of the Company a notice in writing stating the intention of the holder to exercise a specified number of Options, accompanied by a cheque made payable to the Company for the subscription money due, subject to the funds being cleared funds. The exercise of only a portion of the Options held does not affect the holder's rights to exercise the balance of any Options held;

- the Company must issue the shares no later than 14 business days after receipt of the notice of exercise of the Options and the exercise money;
- shares issued on the exercise of Options will rank, as from the date of issue, equally in all respects with the then shares;
- a statement of holding will be issued for the Options. The reverse side of each statement will set out the rights of the Option holder and a notice that is to be completed when exercising the Options;
- if the Company is listed on any Australian Stock Exchange, the Company must make application to have shares issued on an exercise of Options listed for official quotation by that stock exchange no later than three business days after the issue of the shares;
- Options will not entitle the holder to participate in any new pro-rata issue of securities of the Company. However, an entitlement to participate will apply following the exercise of the Options. Option holders will be afforded the period of at least nine business days before the record date of a new pro-rata issue of securities to exercise the Options;
- if the issued capital of the Company is reconstructed the number of Options or the exercise price of the Options or both must be reconstructed (as appropriate) so that there will not be any benefits conferred on Option holders which are not conferred on shareholders. Subject to the rounding of entitlements as sanctioned by the meeting of shareholders approving the reconstruction of capital the terms for the exercise of Options must remain unchanged in all other respects;
- the Options do not give any right to participate in any dividends declared by the Company. Shares issued on the exercise of the Options rank equally for dividends with other shares;
- the number of shares issued on the exercise of Options will be adjusted for pro rata bonus issues made before exercise of Options. The effect of this adjustment will be that, on the exercise of the Options, the number of shares received by the Option holder will include the number of bonus shares that would have been issued if the Options had been exercised before the record date for bonus issues. The exercise price of the Options will not change because of any bonus issue;
- if there is a pro rata rights issue to shareholders in the Company before the exercise of an Option then subject to any applicable listing rule, the exercise price of the Option will be reduced according to the following formula:

$$O' = \frac{O - E[P - (S + D)]}{N + 1}$$

Where

- O' = the new exercise price of the Option
- O = the old exercise price of the Option
- E = the number of shares into which Option is exercisable
- P = the average market price per share (weighted by reference to volume) of the shares during the 5 trading days ending on the day before the ex rights date or the ex entitlement date
- S = the subscription price for a share under the pro-rata issue
- D = the dividends due but not yet paid on the existing shares (except those to be issued under the issue)
- N = the number of shares with rights or entitlement that must be held to receive a right to one new share

A copy of the full terms of the Options plan is available to shareholders free of charge from the company secretary.

Recommendation: The Directors recommend that you vote in favour of the resolution to approve the issue of securities.
