Dear Scott

Correction to half yearly reports of Australian Small Scale Offerings Board

Australian Small Scale Offerings Board wishes to lodge a corrected version of the "Results for announcement to the market" and Half Yearly Report for 31 December 2008. The only change is the correction of a typographical error in the "Payments to suppliers and employees" line in the Cash Flow statement on both reports.

Yours faithfully

Susan Williams

Colin Archer (resigned on 12 September 2008)

Company overview

The first 6 months of 2009 were difficult months for the company. The strategy of expanding into new operational areas from a Sydney base was not successful and as such the decision was taken in October 2008 to consolidate the business and refocus on the core business of the Australian Small Scale Offerings Board. This was the only division generating income. With the collapse in the world equity markets it was necessary to downsize the operation considerable to match inflows with outflows. Around 70% of staff were made redundant and only one operational office was kept going.

This new focus though has enabled the business to develop new strategy to leverage this company strong position in the unlisted public company fund raising space and several new initiatives were in planning as at 31 December 2008.

Operating results

The Company's operating loss after tax for the half year ended 31 December 2008 was \$2,597,338.

Dividends

No dividends were paid during the financial year under review.

After balance date events

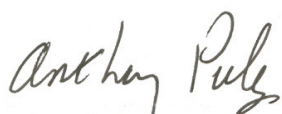

No matters or circumstances have arisen since the end of the financial half year which significantly affected or may significantly affect the operations of the company, the results of those operations or the state of affairs of the company in future financial years.

Auditors Independence Declaration

The lead auditor's independence declaration under section 307C of the Corporations Act 2001 is set out on page 4 for the half year ended 31 December 2008.

This report is made in accordance with a resolution of directors.

NOTES TO THE FINANCIAL STATEMENTS
for the half year ended 31 December 2008

1. Basis of preparation

This half year consolidated financial report has been prepared in accordance with Accounting Standard AASB 134 and is to be read in conjunction with the annual financial report for the year ended 30 June 2008. It is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards and the Corporations Act. Australian Accounting Standards include Australian equivalents to International Financial Reporting Standards (IFRS). Compliance with the Australian equivalents to IFRS (AIFRS) ensures that the financial report (comprising the group's financial statements and notes) complies, where applicable, with IFRSs.

Notes of a type normally included in an annual financial report are not included.

The same accounting policies have been followed as those applied in the financial report for the year ended 30 June 2008.

Change of name

During the half-year the company changed its name from Start Securities Group Limited to Australian Small Scale Offerings Board Limited

2. Impairment of assets

At each reporting date, the Company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised in the profit or loss immediately, unless the relevant asset is carried at fair value, in which case the impairment loss is treated as a revaluation decrease. Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years.

A reversal of an impairment loss is recognised in the profit or loss immediately, unless the relevant asset is carried at fair value, in which case the impairment loss is treated as a revaluation increase.

At the reporting date, the directors' have assessed the carrying value of goodwill. It was determined that the goodwill, when acquired, had a useful life 5 years. In the current economic climate, the directors have assessed the carrying value to be \$1,500,000 which is representative of the remaining economic benefits to be derived from the asset.

Independent Review Report to the Members of Australian Small Scale Offerings Board Ltd

The financial report and directors' responsibility

The interim consolidated financial report comprises the balance sheet, income statement, statement of changes in equity, cashflow statement, accompanying notes to the financial statements, and the directors' declaration for Australian Small Scale Offerings Board Ltd for the half-year ended 31 December 2008.

The Company's directors are responsible for the preparation and fair presentation of the consolidated financial report in accordance with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*. This includes responsibility for the maintenance of adequate accounting records and internal controls that are designed to prevent and detect fraud and error, and for the accounting policies and accounting estimates inherent in the financial report.

Review approach

We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of an Interim Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the interim consolidated financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated financial position as at 31 December 2008 and the performance for the half year ended on that date; and complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As auditor of Australian Small Scale Offerings Board Ltd, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of an interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

Independence

In conducting our review we have complied with the independence requirements of the *Corporations Act 2001*.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the interim consolidated financial report of Australian Small Scale Offerings Board Ltd is not in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the consolidated financial position as at 31 December 2008 and of the performance for the half-year ended on that date; and
- complying with Australian Accounting Standard AASB134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
