

Market Announcement :

Date: 23rd Sept 09

Baribunma Ltd (code : BBA) successfully completes early stage development of disability bus & coach seat.

Under the Disability Standards for Accessible Public Transport 2002 (as amended), made under subsection 31 (1) of the Disability Discrimination Act 1992, Section 9.4 of the regulations require busses and coaches to allocate space for wheelchair passengers. The space required results in the loss of up to 4 normal seats. This amounts to a loss of revenue per trip for the bus and coach operators.

The Baribunma solution not only results in reduced loss of revenue but also provides the chairbound passenger with improved safety during the trip. Initial prototyping by Baribunma will shortly be followed by on-board testing and ultimately crash testing to confirm this solution meets all safety requirements. The proposed Baribunma product will ultimately provide the chairbound passenger with a solution to bus and coach travel that addresses both safety and dignity issues currently of concern to disabled passengers.

Baribunma acknowledges and wishes to thank the Bus Industry Confederation for the industry background and information provided thus far relating to this project.
