### RELEASE

## **BRAVEHEART-1, WA-333-P – BROWSE BASIN - PROGRESS REPORT No. 1**

Exoil Limited (**NSX Code: EXX**) advises that the Braveheart-1 well was spudded 29 December 2009 by the Songa Venus semi-submersible drilling rig.

As of 6:00 am AWST on 30 December 2009, the rig had finished drilling the initial 36" section of the hole and was in the process of running 30" casing prior to the installation of the wellhead. At this time the projection is for the well to be entering the main target zone on or about 4 January 2010.

Braveheart-1 is situated in the Browse Basin permit WA-333-P, offshore Western Australia and is being drilled into the Braveheart Prospect that straddles the WA-332-P and WA-333-P permits.

The participants in the Braveheart-1 well and the Braveheart Joint Venture are:
