Comments by directors

Comments on the following matters are required by the Exchange or, in relation to the half yearly statement, by AASB 134: Interim Financial Reporting. The comments do not take the place of the directors' report and statement (as required by the Corporations Act) but may be incorporated into the directors' report and statement. For both half yearly and preliminary final statements, if there are no comments in a section, state NIL. If there is insufficient space in comment, attach notes to this statement.

Over the past 12 months the company has continued to focus on its core business of assisting small cap company's list on National Stock Exchange and Australian Stock Exchange.

During the 12 month period ended 30 June 2010 the Company earned \$412,000 in revenue compared to \$501,000 for the same period last year. This figure included an unrealised gain on its listed share portfolio of \$250,000.

Total expenses for the 12 months ended 30 June 2010 amounted to \$402,000 compared to \$570,000 for the same period last year, including an impairment expense of \$22,299 was made in respect of the loan outstanding from Alma mining.. Projected expenses for the 12 months commencing 1 July 2010 reflect an even more significant reduction in overall operating costs as the company downsizes its office facilities and employee complement.

Net profit for the full year was \$10,000 compared to a loss of \$74,000 for the same period last year.

The unrealised gain of \$250,000 was attributed to the Directors assessed value of its 2 million ordinary shares in Meridien Resources Limited, which listed on the National Stock Exchange on 29 October 2009. Meridien Resources holds an exploration license for the Lucky Draw Gold Tailings dam in Burruga (central west NSW) and recently finalised farm in agreements with Jaguar Minerals giving it access to additional gold resources in the region. Meridien Resources is proposing to move its listing from the National Stock Exchange to the Australian Stock Exchange later this year in order to raise the funds required for its exploration and mining operation.

Meridien Capital Limited currently hold 7,500,000 ordinary shares and 3,750,000 options in the unlisted public company, Paniai Gold Limited. Which is now likely to achieve an ASX listing in the last quarter of this financial year. In the meantime the company continues to work with the Peak Minerals Limited with the objective of listing that company on the NSX in the first quarter of the calendar year 2011.

The company continues to evaluate a number of options to acquire business's to provide a platform to move its current listing to the ASX.

In this respect the possible acquisition and merger of complimentary business's, ASC Asia company Limited (Thailand) and Australian Cable Tray System Pty Ltd presents an attractive opportunity. Both companies make and distribute comprehensive range of flat steel and mesh wire electrical cable support products used in commercial buildings, general infrastructure and mining.

Basis of accounts preparation

If this statement is a half yearly statement, it is a general purpose financial report prepared in accordance with the listing rules and AASB 134: Interim Financial Reporting. It should be read in conjunction with the last annual report and any announcements to the market made by the issuer during the period. This report does not include all notes of the type normally included in an annual financial report [Delete if inapplicable.]

A description of each event since the end of the current period which has had a material effect and is not related to matters already reported, with financial effect quantified (if possible). In a half yearly report, provide explanatory comments about any seasonal or irregular factors affecting operations (as per paragraphs 16(b), 16(b) and Aus 16.1 of AASB 134: Interim Financial Reporting)

There has not been any event subsequent to 30 June 2010 which has had a material effect.

Any other factors which have affected the results in the period, or which are likely to affect results in the future, including those where the effect could not be quantified.

There has not been any factor which has materially affected the results in the period to 30 June 2010 or which may materially affect the future results.

Franking credits available and prospects for paying fully or partly franked dividends for at least the next year

Notes

1. **For announcement to the market** The percentage changes referred to in this section are the percentage changes calculated by comparing the current period's figures with those for the previous corresponding period. Do not show percentage changes if the change is from profit to loss or loss to profit, but still show the amount of the change up or down. If changes in accounting policies or procedures have had a material effect on reported figures, do not show either directional or percentage changes in profits. Explain the reason for the omissions in the note at the end of the announcement section. *Issuers* are encouraged to attach notes or fuller explanations of any significant changes to any of the items in page 1. The area at the end of the announcement section can be used to provide a cross reference to any such attachment.
2. **True and fair view** If this statement does not give a true and fair view of a matter (for example, because compliance with an Accounting Standard is required) the *issuer* must attach a note providing additional information and explanations to give a true and fair view.
3. **Consolidated statement of financial performance**
 - Item 1.1 The definition of "revenue" is set out in *AASB 118: Revenue*
 - Item 1.6 This item refers to the total tax attributable to the amount shown in *item 1.5*. Tax includes income tax and capital gains tax (if any) but excludes taxes treated as expenses from ordinary activities (eg. fringe benefits tax).
4. **Income tax** If the amount provided for income tax in this statement differs (or would differ but for compensatory items) by more than 15% from the amount of income tax *prima facie* payable on the profit before tax, the issuer must explain in a note the major items responsible for the difference and their amounts. The rate of tax applicable to the franking amount per dividend should be inserted in the heading for the column "Franking rate applicable" for items in *section 9*.
5. **Consolidated statement of financial position**

Format The format of the consolidated statement of financial position should be followed as closely as possible. However, additional items may be added if greater clarity of exposition will be achieved, provided the disclosure still meets the requirements of *AASB 134: Interim Financial Reporting*, and *AASB 101: Presentation of Financial Statements*. Banking institutions, trusts and financial institutions may substitute a clear liquidity ranking for the Current/Non-Current classification.

Basis of revaluation If there has been a material revaluation of non-current assets (including investments) since the last annual report, the *issuer* must describe the basis of revaluation adopted. The description must meet the requirements of *AASB 116: Property, Plant and Equipment*. If the *issuer* has adopted a procedure of regular revaluation, the basis for which has been disclosed and has not changed, no additional disclosure is required.
6. **Consolidated statement of cash flows** For definitions of "cash" and other terms used in this statement see *AASB 107: Cash Flow Statements*. *Issuers* should follow the form as closely as possible, but variations are permitted if the *directors* (in the case of a trust, the management company) believe that this presentation is inappropriate. However, the presentation adopted must meet the requirements of *AASB 107*.
7. **Net tangible asset backing** Net tangible assets are determined by deducting from total tangible assets all claims on those assets ranking ahead of the ordinary *securities* (i.e. all liabilities, preference shares, outside equity interests, etc). Mining *issuers* are *not* required to state a net tangible asset backing per ordinary *security*.
8. **Gain and loss of control over entities** The gain or loss must be disclosed if it has a material effect on the consolidated financial statements. Details must include the contribution for each gain or loss that increased or decreased the *issuer's* consolidated operating profit

(loss) after tax by more than 5% compared to the previous corresponding period.

9. **Equity accounting** If an *issuer* adopts equity accounting, no comparative equity accounting figures are required in the first period following its adoption.
10. **Rounding of figures** This statement anticipates that the information required is given to the nearest \$1,000. However, an *issuer* may report exact figures, if the \$A'000 headings are amended. If an *issuer* qualifies under ASIC Class Order 98/0100 dated 15 July 2004, it may report to the nearest million dollars, or to the nearest \$100,000, if the \$A'000 headings are amended.
11. **Comparative figures** Comparative figures are to be presented in accordance with AASB 101: *Presentation of Financial Statements* or AASB 134: *Interim Financial Reporting* as appropriate and are the unadjusted figures from the last annual or half year report as appropriate. However, if the previously reported figures are adjusted to achieve greater comparability, in accordance with an accounting standard or other reason, a note explaining the adjustment must be included with this statement. If no adjustment is made despite a lack of comparability, a note explaining the position should be attached.
12. **Additional information** An *issuer* may disclose additional information about any matter, and must do so if the information is material to an understanding of the financial statements. The information may be an expansion of the material contained in this statement, or contained in a note attached to the statement. The requirement under the listing rules for an *issuer* to complete this statement does not prevent the *issuer* issuing statements more frequently. Additional material lodged with the ASIC under the *Corporations Act* must also be given to the *Exchange*. For example, a *directors'* report and declaration, if lodged with the ASIC, must be given to the *Exchange*.
13. **Accounting Standards** the *Exchange* will accept, for example, the use of International Accounting Standards for *foreign issuers*. If the standards used do not address a topic, the Australian standard on that topic (if one exists) must be complied with.
14. **Borrowing corporations** This statement may be able to be used by an *issuer* required to comply with the *Corporations Act* as part of its half yearly financial statements if prepared in accordance with Australian Accounting Standards.
15. **Details of expenses** AASB 101: *Presentation of Financial Statements* requires disclosure of expenses according to either their nature or function. For foreign entities, there are similar requirements in other accounting standards accepted by the *Exchange*. *Issuers* must disclose details of expenses using the layout (by nature or function) employed in their accounts.

The information in *items 7.1 - 7.2* may be provided in an attachment to Appendix 3

Relevant items AASB 101: *Presentation of Financial Statements* requires the separate disclosure of specific revenues and expenses which are of a size, nature or incidence that disclosure is *relevant*, as defined in AASB 101, in explaining the financial performance of the *issuer*. There is an equivalent requirement in AASB 134: *Interim Financial Reporting*. For foreign entities, there are similar requirements in other accounting standards accepted by the *Exchange*.

16. **Dollars** If reporting is not in A\$, all references to \$A must be changed to the reporting currency. If reporting is not in thousands of dollars, all references to "000" must be changed to the reporting value.
17. **Discontinuing operations**

Entities must either provide a description of any significant activities or events relating to discontinuing operations equivalent to that required by *paragraph 7.5 (g) of AASB 134: Interim Financial Reporting*, or, the details of discontinuing operations they are required to disclose in their accounts in accordance with AASB 5: *Non-current Assets for Sale and Discontinued*

Operations

In any case, the information may be provided as an attachment to this Appendix 3
