6 March 2014

STATEMENT TO NSX – PROPOSED DRILLING, ALLENDALE

On 6 March, 2014, Mount Rommel Mining Ltd. received by post mail documents from Government giving approval to the Work Plan Variation, Allendale.

This document is the commercial prerequisite for drilling at Allendale.

The Date of Registration of approval shown on these documents is **27 February, 2014**. The proposals approved were those as lodged by the Company.

Directors very much regret that they were unable to supply this market-related information prior to the closing of the period for those holding Options.

As to drilling, prior experience of coring below the basalt at Allendale is considered to be directly relevant to this proposed work.

The Company will now develop a time-table for the intended work, and engage with landowners in this regard.

F.L.Hunt,

Chairman.
