Notes To The Financial Statements

For the half year ended 31 December 2016

NOTE 1: Significant Accounting Policies

Statement of Compliance

The condensed interim report is a general purpose financial report prepared in accordance with the requirements of the *Corporations Act 2001* and Australian Accounting Standard AASB 134: *Interim Financial Reporting*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standards IAS 34: Interim Financial Reporting. The half year report does not include notes of the type normally included in an annual financial report and should be read in conjunction with the most recent annual financial report.

Basis of Preparation

The condensed interim report has been prepared on an accruals basis and is based on historical costs, modified by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied. All amounts are presented in Australian dollars, unless otherwise stated.

The condensed interim report is intended to provide users with an update on the latest annual financial statements of Winpar Holdings Limited. As such, it does not contain information that represents relatively insignificant changes occurring during the half year. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the company for the year ended 30 June 2016, together with any public announcements made during the half year in accordance with the continuous disclosure requirements of the Corporation Act 2001.

The accounting policies and methods of computation adopted in the preparation of the condensed interim financial report are consistent with those adopted and disclosed in the company's 2016 annual financial report for the year ended 30 June 2016. To enhance and provide greater clarity to users on the company's results the Statement of Profit or Loss and Other Comprehensive Income has been presented with separate revenue and capital columns.

Excess of current liabilities over current assets

At 31 December 2016, the company had current assets of \$91,555 and current liabilities of \$271,836, a deficiency of \$180,281. The condensed interim financial report has been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the ordinary course of business. The directors will realise a portion of the company's investment portfolio to enable the company to meet any debts as and when they fall due and payable if required. It is on this basis that the going concern assumption is considered appropriate.

New, revised or amending Accounting Standards and Interpretations adopted

The Company has not applied any Australian Accounting Standards or AASB interpretations that have been issued at balance date but are not yet operative for the half year ended 31 December 2016 ("the inoperative standards"). The impact of the inoperative standards has been assessed and the impact has been identified as not being material. The company only intends to adopt inoperative standards at the date at which their adoption becomes mandatory.

The adoption of the various Australian Accounting Standards and Interpretations in issue but not yet effective will not impact the company's accounting policies. However, the pronouncements will result in changes to information currently disclosed in the financial statements. The company does not intend to adopt any of these pronouncements before their effective dates.
