

## APPENDIX 2A - NSX

### Preliminary Final Report

**Company details**

Name of entity:	Australia & International Holdings Limited
ABN:	98 009 706 414
Reporting period:	For the year ended 30 June 2017
Previous reporting period:	For the year ended 30 June 2016

**Results for announcement to the market****Revenues**

Revenues from ordinary activities	up	5.71%	to	\$ 168,226
Net gain\loss on disposal of available-for-sale financial assets				-\$ 2,240

**Profit**

Profit from ordinary activities after tax attributable to the owners of Australia & International Holdings Limited	up	16.08%	to	\$ 118,257
Profit for the period attributable to the owners of Australia & International Holdings Limited	up	16.08%	to	\$ 118,257

**Dividends**

	Amount per security ¢	Franked amount per security ¢
Final dividend for the year ended 30 June 2016 paid on 21 October 2016	6.000	4.500
Interim dividend for the year ended 30 June 2017 paid on 18 April 2017	6.000	4.200

**Comments**

The profit for the company after providing for income tax amounted to \$118,257 (30 June 2016: \$101,874). Revenue from ordinary activities for the financial year ended 30 June 2017 was \$168,226, which was \$9,082 or 5.7% higher than the prior comparable period. This was mainly attributable to higher distributions received and receivable from the Burrell investment trusts. There was a small loss on sale of investments from the portfolio during the year, resulting in Other income being \$(2,240).

Expenses of \$53,224 in 2017 were \$3,285 or 5.8% lower than the previous year, mainly due to a decrease in listing fees, which were higher in the previous financial year. Tax benefit in 2017 was \$5,495, compared to a tax expense of \$761 for the previous year, mainly from a movement in the deferred tax asset. The net effect of these movements resulted in the profit being \$16,383 or 16.1% higher than the previous comparable period. The expense to average investments ratio was 1.17%

No final dividend for the current financial year has yet been declared.

#### Dividend reinvestment plan

The Company has a dividend reinvestment plan (DRP) under which shareholders have the option of electing to have their dividend payment reinvested in new ordinary shares. Pricing of the new DRP shares is based on the most recent Net Asset Value per share calculated at the time from the management accounts of the Company.

### 19 Reports for industry and geographical segments

The Company is predominantly invested in the Burrell Australian Equities Trust, the Burrell World Equities Trust and the Burrell Smallcaps Midcaps and Resources Trust who in turn invest the majority of their funds for the medium to long-term in companies listed on the Australian and international stock exchanges and selected managed funds. The Company's allocation of investments and the performance of these investments are in line with the investment portfolios of the three trusts and it follows that an appropriate categorisation of segments for reporting purposes is into Australian long-term shares, Australian small-mid cap shares, and overseas long-term shares. The Australian large-cap portfolio is made up of blue chip and quality shares in the ASX All Ordinaries Index, the Australian small-mid cap portfolio comprises Australian smallcap, midcap and resources stocks, and the overseas portfolio consists of shareholdings in stocks traded on stock exchanges with similar corporate governance regimes as Australia. This portfolio is primarily made up of shares in companies operating in the USA, UK, Europe and Asia.

Net profit for the Company for the financial year after providing for income tax	<u>118,257</u>	<u>101,874</u>

**Overview**

The Company provides investors with a medium to long-term investment vehicle with exposure to Australian and overseas listed equity investments and managed funds. The primary objective is to provide returns from dividends and capital growth.

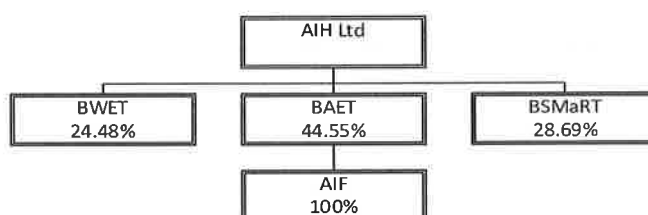

**Australia & International Holdings Limited**  
**Directors' Report**  
**30 June 2017**

**Structure**

The Company is structured in order to provide investors with the opportunity to invest in a vehicle that holds positions in a strategically balanced and well-diversified set of investment portfolios. The majority of shareholder funds are invested over the medium to long term period in both Australian and international companies and managed funds. This is facilitated through the Company's investments in the Burrell Australian Equities Trust ("BAET"), the Burrell World Equities Trust ("BWET"), and the Burrell Smallcaps Midcaps and Resources Trust ("BSMaRT").

BAET, BWET and BSMaRT are all managed investment schemes. BAET invests in listed Australian equities and managed funds. BWET invests in listed international equities and managed funds, and may use foreign exchange hedging instruments to hedge its exposure to fluctuations in foreign currencies. BSMaRT holds short term trading and sector overweight positions in the Australian equities market.

As at 30 June 2017 approximately 89% of AIH's investment portfolio comprised of investments in BAET, BWET and BSMaRT in the percentages of 56%, 22% and 11% respectively. This was achieved through the following ownership structure, whereby AIH owned 44.55% of the units on issue in BAET, 24.48% of the units on issue in BWET and 28.69% of the units on issue in BSMaRT.

**Performance Outcomes**

**Net Return**

The net return to shareholders for the financial year ended 30 June 2017 was 7.45%. This 'net return' is not directly comparable to publicly reported share price or accumulation indices because it is after costs have been deducted for managing and administering the portfolios and the Company. It is also after an allowance for tax at the rate of 30% has been deducted from operating profits and on the increases in value of the investment portfolios. Further, the return shareholders in AIH received from dividends are mostly franked. As such we look at the 'gross returns' from the individual investment portfolios.

**Gross Returns**

For comparative purposes the international portfolio is benchmarked against the "MSCI" World (excluding Australia) Accumulation Index in local currency; and, the Australian long-term portfolio against the ASX All Ordinaries Accumulation Index. The trading portfolio is more difficult to benchmark because it includes a mix of mid-cap shares and some overweight positions in blue-chip shares. However, we feel that the return from this portfolio is related to the performance of the Australian long-term portfolio.

The performances of the individual portfolios the Company invested in for the financial year ended 30 June 2017 and the comparative period are as follows:

	30-Jun-17 %	30-Jun-16 %
Burrell Australian Equities Trust (excl. AIF)	16.0	-1.5
Burrell Australian Equities Trust (incl. AIF)	15.6	-1.3
Burrell World Equities Trust	8.8	-10.7
Burrell Small-cap, Mid-cap and Resources	3.1	15.8
Australian All Ordinaries Accumulation Index	13.1	2.0
Australian Small Ordinaries Accumulation	7.0	14.4
MSCI World Index ex Australia (in Australian dollar terms)	13.7	-4.1

**Australia & International Holdings Limited**  
**Directors' Report**  
**30 June 2017**

The Company looks through to the investment portfolios of BAET, BWET and BSMaRT to see its investments by industry sector:

	<b>30-Jun-17</b>	<b>30-Jun-16</b>
	<b>%</b>	<b>%</b>
Energy	2.8	4.7

	<b>30-Jun-17</b>	<b>30-Jun-16</b>
Earnings per share based on the net operating result (cents)	7.8 ¢	6.94 ¢

**Significant changes in the state of affairs**

There were no significant changes in the state of affairs of the entity during the financial year.

**Matters subsequent to the end of the financial year**

No matter of circumstance has arisen since 30 June 2017 that has significantly affected, or may significantly affect the company's operations, the results of those operations, or the company's state of affairs in future financial years.

**Likely developments and expected results of operations**

Information on likely developments in the operations of the company and the expected results of operations have not been included in this report because the directors believe it would be likely to result in unreasonable prejudice to the company.

**Environmental regulation**

The company is not subject to any significant environmental regulation under Australian Commonwealth or State law.

**Australia & International Holdings Limited**  
**Directors' Report**  
**30 June 2017**

The number of meetings of the company's Board of Directors held during the year ended 30 June 2017, and the number of meetings attended by each director was:

	Full Board	
	Held	Attended
Bernard C Rowley	4	4
Christopher T Burrell	4	4
Roger J Burrell	4	3
Frank J Finn	4	4

**Australia & International Holdings Limited**  
**Directors' Report**  
**30 June 2017**

**Retirement, election and continuation in office of directors**

Messrs R J Burrell and B C Rowley are the Directors retiring by rotation, who, being eligible, offer themselves for re-election.

**Remuneration report (audited)**

No remuneration was paid to the Directors during the year ended 30 June 2017. No other management or staff is employed by the Company.

*Director's shareholdings*

The number of shares in the Company held during the financial year by each director of the entity, including their personally related parties, is set out below:

	Balance at the start of the year	Additions	Disposals	Balance at the end of the year
Mr C T Burrell	383,550	19,178	(107,361)	295,367
Mr C T Burrell (non-beneficial owner)	40,609	109,391	-	150,000
Mr R J Burrell	76,198	3,810	-	80,008
Prof F J Finn	35,681	-	-	35,681
Mr B C E Rowley (non-beneficial owner)	32,421	-	-	32,421
	<u>568,459</u>	<u>132,379</u>	<u>(107,361)</u>	<u>593,477</u>

Transactions relating to dividends, rights issues and subscriptions for new ordinary shares were on the same terms and conditions that applied to other shareholders.

*Other transactions with Directors and Director-related entities*

Mr C T Burrell, Mr B C E Rowley and R J Burrell are Directors of Burrell Stockbroking Pty Ltd. This company provides stockbroking and secretarial, portfolio administration and management services to the Company. There was no brokerage paid by the Company to Burrell Stockbroking Pty Ltd during the year, and an amount of \$18,488 was paid in respect of the other services. Mr C T Burrell, Mr B C E Rowley and Mr R J Burrell are Directors of Burrell & Co Holdings Pty Ltd. This company provides clearing and settlement services to the Company. There were no fees or charges paid by the Company to Burrell & Co Holdings Pty Ltd during the year.

Other details relating to Directors are set out at Note 24. Related Parties, in the Notes to and forming part of the Financial Statements for the year ended 30 June 2017.

Except as otherwise disclosed, no Director of the Company has received, or has become entitled to receive, a benefit because of a contract that the directors, or a firm of which the director is a member, or an entity in which the Director has a substantial financial interest, has made (during the year ended 30 June 2017 or at any other time) with the Company; or an entity that the Company controlled, or a body corporate that was related to the Company, when the contract was made or when the Director received, or became entitled to receive, the benefit.

*Issue of shares*

There were no shares issued to directors and other key management personnel as part of compensation during the year ended 30 June 2017.

*Options*

There were no options issued to directors and other key management personnel as part of compensation during the year ended 30 June 2017.

There were no options granted to or exercised by directors and other key management personnel as part of compensation during the year ended 30 June 2017.

This concludes the remuneration report, which has been audited.

**Indemnity and insurance of officers**

The company has indemnified the directors and executives of the company for costs incurred, in their capacity as a director or executive, for which they may be held personally liable, except where there is lack of good faith.

**Australia & International Holdings Limited**  
**Directors' Report**  
**30 June 2017**

**Indemnity and insurance of auditor**

The company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the company or any related entity against a liability incurred by the auditor.

During the financial year, the company has not paid a premium in respect of a contract to insure the auditor of the company or any related party.

**Proceedings of behalf of the company**

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the company, or to intervene in any proceedings to which the company is a party for the purpose of taking responsibility on behalf of the company for all or part of those proceedings.

**Non-audit services**

There were no non-audit services provided during the financial year by the auditor.

**Officers of the company who are former audit partners of PKF Hacketts Audit**

There are no officers of the company who are former audit partners of PKF Hacketts Audit.

**Auditor's independence declaration**

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 8.

**Auditor**

PKF Hacketts Audit continues in office in accordance with section 327 of the Corporations Act 2001.

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

On behalf of the directors

**Bernard C Rowley**  
Chairman

**Christopher T Burrell**  
Director

6 September 2017  
Brisbane

**AUDITOR'S INDEPENDENCE DECLARATION  
UNDER SECTION 307C OF THE CORPORATIONS ACT 2001  
TO THE DIRECTORS OF  
AUSTRALIA & INTERNATIONAL HOLDINGS LIMITED**

I declare that, to the best of my knowledge and belief, during the year ended 30 June 2017, there have been:

- (a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (b) no contraventions of any applicable code of professional conduct in relation to the audit.

**Note 1. Significant accounting policies**

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

**New, revised or amending Accounting Standards and Interpretations adopted**

None of the new standards and amendments to standards that are mandatory for the first time for the financial year beginning 1 July 2016 affected any of the amounts recognised in the current period or any prior period and are not likely to affect future periods.

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

**Basis of preparation**

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ('IASB').

*Historical cost convention*

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of available-for-sale financial assets, financial assets and liabilities at fair value through profit or loss, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

*Critical accounting estimates*

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.

**Operating segments**

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'), being the Board of Directors. The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

**Revenue recognition**

Revenue is recognised when it is probable that the economic benefit will flow to the company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

Revenue from passive dividends, trust income and interest is recognised as it is received.

Revenue from the sale of investments is recognised from the date of contract, and is the difference between the sale price, less selling costs, and the purchase price, or if revalued, the revalued amount.

*Other revenue*

Other revenue is recognised when it is received or when the right to receive payment is established.

**Note 1. Significant accounting policies (continued)**

**Income tax**

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or

When the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entity's which intend to settle simultaneously.

**Cash and cash equivalents**

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**Trade and other receivables**

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment. Trade receivables are generally due for settlement within 30 days.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off by reducing the carrying amount directly. A provision for impairment of trade receivables is raised when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payments (more than 60 days overdue) are considered indicators that the trade receivable may be impaired.

Other receivables are recognised at amortised cost, less any provision for impairment.

**Investments and other financial assets**

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. They are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on the purpose of the acquisition and subsequent reclassification to other categories is restricted. The fair values of quoted investments are based on current bid prices. For unlisted investments, the company establishes fair value by using valuation techniques. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, and option pricing models.

**Note 1. Significant accounting policies (continued)**

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the company has transferred substantially all the risks and rewards of ownership.

*Available-for-sale financial assets*

Available-for-sale financial assets are non-derivative financial assets, principally equity securities, that are either designated as available-for-sale or not classified as any other category. After initial recognition, fair value movements are recognised in other comprehensive income through the available-for-sale reserve in equity. Cumulative gain or loss previously reported in the available-for-sale reserve is recognised in profit or loss when the asset is derecognised or impaired.

*Impairment of financial assets*

The company assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired. Objective evidence includes significant financial difficulty of the issuer or obligor; a breach of contract such as default or delinquency in payments; the lender granting to a borrower concessions due to economic or legal reasons that the lender would not otherwise do; it becomes probable that the borrower will enter bankruptcy or other financial reorganisation; the disappearance of an active market for the financial asset; or observable data indicating that there is a measurable decrease in estimated future cash flows.

Available-for-sale financial assets are considered impaired when there has been a significant or prolonged decline in value below initial cost. Subsequent increments in value are recognised directly in the available-for-sale reserve.

**Investments in Associates**

**AASB 128 – Investments in Associates**

This accounting standard is applied in accounting for investments in entities where the investor has significant influence, which is presumed if the investor holds 20% or more of the voting power of the investee, unless it can be shown otherwise. Investments in associates are normally accounted for in the financial statements by applying the equity method of accounting whereby the investment is recognised at cost and adjusted for thereafter for the post acquisition change in the Company's share of the net assets of the associate entity. This accounting standard does not contemplate 'available for sale' financial assets.

**AASB 139 – Financial Instruments: Recognition and Measurement**

This accounting standard is applied in accounting for investments in financial instruments and stipulates that where a financial asset is classified as 'available for sale' it should be initially recorded at cost and any changes in fair value recorded in the available for sale reserve in equity.

At the end of the financial year the Company held investments in the Burrell Australian Equities Trust, the Burrell World Equities Trust and the Burrell Smallcaps Midcaps and Resources Trust, ("the Trusts") representing 44.55%, 24.48% and 28.69% respectively of the units on issue of each trust. This would normally mean that the investments by the Company in these entities be accounted for by adopting the AASB 128 Investments in Associates Accounting Standard. However, the directors have considered the nature of the Company's investment in the Trusts and determined the Company does not have significant influence. Accordingly, the Company has adopted the accounting treatment under AASB 139 and recorded the investments as 'available for sale'. This has been done because all three trusts are investment vehicles which invest in the shares of listed companies and managed funds and these assets held by the trusts are accounted for as 'available for sale' assets. Therefore, the Company has 'looked through' to the nature of its underlying assets and applied the same accounting treatment to maintain consistency and avoid confusion to the readers of these financial statements. It should be noted that the affect on the net assets of the Company under equity accounting and the current treatment is the same.

**Trade and other payables**

These amounts represent liabilities for goods and services provided to the company prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

**Note 1. Significant accounting policies (continued)**

**Issued capital**

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

**Dividends**

Dividends are recognised when declared during the financial year and no longer at the discretion of the company.

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the company, on or before the end of the financial year but not distributed at the reporting date.

**Earnings per share**

*Basic earnings per share*

Basic earnings per share is calculated by dividing the profit attributable to the owners of Australia & International Holdings Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

*Diluted earnings per share*

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

**Goods and Services Tax ('GST') and other similar taxes**

GST incurred is not recoverable from the tax authority and is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable.

Cash flows are presented on a gross basis.

**New Accounting Standards for Application in Future Periods**

Accounting Standards and Interpretations issued by the AASB that are not yet mandatorily applicable to the Company, together with an assessment of the potential impact of such pronouncements on the Company when adopted in future periods, are discussed below:

**AASB 9:** Financial Instruments and associated Amending Standards (applicable to annual reporting periods beginning on or after 1 January 2018).

The Standard will be applicable retrospectively (subject to the provisions on hedge accounting outlined below) and includes revised requirements for the classification and measurement of financial instruments, revised recognition and derecognition requirements for financial instruments and simplified requirements for hedge accounting.

The key changes that may affect the Company on initial application include certain simplifications to the classification of financial assets and the irrevocable election to recognise gains and losses on investments in equity instruments that are not held for trading in other comprehensive income. AASB 9 also introduces a new model for hedge accounting that will allow greater flexibility in the ability to hedge risk, particularly with respect to hedges of non-financial items. Should the entity elect to change its hedge policies in line with the new hedge accounting requirements of the Standard, the application of such accounting would be largely prospective.

Although the directors anticipate that the adoption of AASB 9 may have a material impact on the Group's financial instruments, it is impracticable at this stage to provide a reasonable estimate of such impact.

**Note 2. Critical accounting judgements, estimates and assumptions**

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. There are no critical accounting judgements, estimates and assumptions that are likely to affect the current or future financial years.

**Note 3. Operating segments**

As previously noted, the Company is predominantly invested in the Burrell Australian Equities Trust, the Burrell World Equities Trust and the Burrell Smallcaps Midcaps and Resources Trust who in turn invest the majority of their funds for the medium to long-term in companies listed on the Australian and international stock exchanges and selected managed funds. The Company's allocation of investments and the performance of these investments are in line with the investment portfolios of the three trusts and it follows that an appropriate categorisation of segments for reporting purposes is into Australian long-term shares, Australian small-mid cap shares, and overseas long-term shares. The Australian large-cap portfolio is made up of blue chip and quality shares in the ASX All Ordinaries Index, the Australian small-mid cap portfolio comprises Australian smallcap, midcap and resources stocks, and the overseas portfolio consists of shareholdings in stocks traded on stock exchanges with similar corporate governance regimes as Australia. This portfolio is primarily made up of shares in companies operating in the USA, UK, Europe and Asia.

*Ordinary shares*

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

*Capital risk management*

The company's objective when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The capital risk management policy remains unchanged from the 30 June 2016 Annual Report.

	2017 \$	2016 \$
Franking credits available for subsequent financial years based on a tax rate of 30%	<u>29,479</u>	<u>31,713</u>

The above amounts represent the balance of the franking account as at the end of the financial year, adjusted for: franking credits that will arise from the payment of the amount of the provision for income tax at the reporting date;

- franking credits that will arise from the payment of the amount of the provision for income tax at the reporting date;
- franking debits that will arise from the payment of dividends recognised as a liability at the reporting date; and
- franking credits that will arise from the receipt of dividends recognised as receivables at the reporting date.

**Note 18. Financial instruments**

***Financial risk management objectives***

The company's activities expose it to a variety of financial risks: market risk (including foreign currency risk, price risk and interest rate risk), credit risk and liquidity risk. The company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the company.

***Market risk***

*Foreign currency risk*

The company holds units in a trust that invests in Internationally listed shares and managed funds. The values of these holdings are converted from foreign currency to domestic currency at balance date, and as such the company is exposed to foreign currency risk through foreign exchange rate fluctuations. Under certain conditions the trust uses exchange traded options and foreign currency denominated currency accounts to hedge against adverse exchange rate movements.

Foreign exchange risk arises from recognised financial assets and financial liabilities denominated in a currency that is not the entity's functional currency.

*Changes in Value*

Market risk cannot be diversified away, but it can be reduced by investing across a broad range of industry sectors and countries. The proportions of the portfolios invested across these two categories are shown in the Directors' Report.

The Company holds units in a trust which through a sub-entity uses ASX exchange traded options to enhance income by taking a premium on options positions sold. The value of options will fluctuate according to price and volatility changes in the underlying securities over which they are written. Options values will also vary with changes to interest rates and company dividends. Further, they will decrease with the passage of time.

*Price risk*

The company is not exposed to any significant price risk.

*Interest rate risk*

The economic entity is exposed to interest rate risk on its cash holdings, which are generally subject to floating interest rates. The effective weighted average interest rate that applied to cash balances over the financial year was 1.6% (2016: 2.3%).

***Credit risk***

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the company. The company minimises credit risk by undertaking transactions with recognised financial intermediaries with acceptable credit ratings determined by a recognised ratings agency.

**Note 18. Financial instruments (continued)**

**Liquidity risk**

Vigilant liquidity risk management requires the company to maintain sufficient liquid assets (mainly cash and cash equivalents) and available borrowing facilities to be able to pay debts as and when they become due and payable.

The company manages liquidity risk by maintaining adequate cash reserves and available borrowing facilities by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

**Note 19. Fair Value measurement**

The company measures and recognises the following assets and liabilities at fair value on a recurring basis after initial recognition:

- available-for-sale financial assets

The company does not subsequently measure any liabilities at fair value on a non-recurring basis.

**a. Fair Value Hierarchy**

AASB 13: Fair Value Measurement requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurements into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1	Level 2	Level 3
Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.	Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.	Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

**Valuation techniques**

The company selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Group are consistent with one or more of the following valuation approaches:

*Market approach:* valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

*Income approach:* valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

*Cost approach:* valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

The company's financial assets that are measured using a Level 2 valuation comprise unlisted unit trusts. The unit prices used in determining the fair value of the company's investment in those trusts is determined based on the fair value (market value or Level 1 methodology) of the underlying assets in the trusts that are entirely held in listed securities. The company does not have any financial assets at fair value measured at Level 3.

**Note 19. Fair Value measurement (continued)**

The following tables provide the fair values of the company's assets and liabilities measured and recognised on a recurring basis after initial recognition and their categorisation within the fair value hierarchy:

		30 June 2017			
	Note	Level 1	Level 2	Level 3	Total
		\$	\$	\$	\$
<b>Recurring fair value measurements</b>					
<i>Financial assets</i>					
Available-for-sale financial assets:					
shares in listed companies		449,089	-	-	449,089
units in unlisted trusts - related parties		-	4,311,222	-	4,311,222
<b>Total financial assets recognised at fair value on a recurring basis</b>	10	449,089	4,311,222	-	4,760,312

		30 June 2016			
	Note	Level 1	Level 2	Level 3	Total

## INDEPENDENT AUDITOR'S REPORT

### TO THE MEMBERS OF AUSTRALIA & INTERNATIONAL HOLDINGS LIMITED

#### Report on the Financial Report

##### Opinion

We have audited the accompanying financial report of Australia & International Holdings Limited ("the company"), which comprises the statement of financial position as at 30 June 2017, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

In our opinion the financial report of Australia & International Holdings Limited is in accordance with *the Corporations Act 2001*, including:

- (i) Giving a true and fair view of the Company's financial position as at 30 June 2017 and of its financial performance for the year then ended; and
- (ii) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

##### Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement. Our responsibilities under those standards are further described in the *Auditor's Responsibility for the Audit of the Financial Report* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

##### Independence

We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

##### Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. This matter was addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter. For the matter below, our description of how our audit addressed the matter is provided in that context.

## Accounting treatment of investments in Burrell Australian Equities Trust, Burrell World Equities Trust and Burrell Smallcaps Midcaps and Resources Trust

### Why significant

As at 30 June 2017, the carrying value of the investments in Burrell Australian Equities Trust, Burrell World Equities Trust and Burrell Smallcaps Midcaps and Resources Trust ("the Trusts") was \$4,311,222 (2016: \$3,904,013), as disclosed in Notes 10 & 19 representing 88.60% of total assets at that date.

The Company accounted for the investment in the Trusts on a 'look-through' basis and recognised these investments in accordance with AASB 139 *Financial Instruments: Recognition and Measurement* as available-for-sale financial assets with the fair value adjustments recorded in the fair value reserve in equity.

### Other Information

Other information is financial and non-financial information in the annual report of the Company which is provided in addition to the Financial Report and the Auditor's Report. The directors are responsible for Other Information in the annual report.

The Other Information we obtained prior to the date of this Auditor's Report was the Directors' report and Shareholders' information. The remaining Other Information is expected to be made available to us after the date of the Auditor's Report.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, the auditor does not and will not express an audit opinion or any form of assurance conclusion thereon, with the exception of the Remuneration Report.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information in the Financial Report and based on the work we have performed on the Other Information that we obtained prior the date of this Auditor's Report we have nothing to report.

### How our audit addressed the key audit matter

Our work included, but was not limited to, the following procedures:

- to assess whether the Company has control or significant influence over the investments in the Trusts:
  - obtaining the position paper prepared by management and assessing whether the assumptions used by management are still appropriate;
  - assessing whether the Company's accounting treatment complies with AASB 139; and
  - assessing the appropriateness of the related disclosures in Notes 1, 10 and 19.

### Directors' Responsibilities for the Financial Report

The Directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In Note 1, the Directors also state, in accordance with Australian Accounting Standard AASB 101 Presentation of Financial Statements, that the financial report complies with International Financial Reporting Standards.

In preparing the financial report, the Directors are responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using a going concern basis of accounting unless the Directors either intend to liquidate the entity or to cease operations, or have no realistic alternative but to do so.

### Auditor's Responsibilities for the Audit of the Financial Report

Our responsibility is to express an opinion on the financial report based on our audit. Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individual or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report.

The procedures selected depend on the auditor's judgement, including assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw

attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the entity to cease to continue as a going concern.

We evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the entity to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements. We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on the Remuneration Report

### Opinion

We have audited the Remuneration Report included in the Directors' Report for the year ended 30 June 2017.

In our opinion, the Remuneration Report of Australia & International Holdings Limited for the year ended 30 June 2017, complies with section 300A of the *Corporations Act 2001*.

### Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
