BOARD CHARTER

Adopted by the board of directors pursuant to a resolution dated 14 December 2017

1. Introduction

- 1.1. The board of directors (the “**Board**”) of **JGY Holdings Limited** (the “**Company**”) is responsible for ensuring that the Company has an appropriate corporate governance structure to ensure the creation and protection of shareholder value. This requires that appropriate accountability and control systems are in place.
- 1.2. This board charter explains the Company’s commitment to corporate governance. It is not an “all inclusive” document and should be read as an expression of principle. The Board will review and update this charter bi-annually or earlier if the Board consider it appropriate to do so.
- 1.3. The Company's constitution, namely its memorandum and articles of association, is its key governance document. At all times, the Board must ensure that it and the Company comply with the provisions of the constitution.

2. Compliance with laws

- 2.1. As a public company seeking to be listed on the National Stock Exchange of Australia (“**NSX**”) [or a public company listed on the NSX should it be admitted to the official list of NSX], the Company must comply with the Corporations Act, NSX Listing Rules, as well as all other applicable laws and statutes.
- 2.2. As the Company operates in numerous jurisdictions, it must ensure that it is aware of and complies with all applicable laws and statutes in those jurisdictions.

3. Guidelines for Board operation & membership

3.1. Appointment and removal of directors

- (a) The Board should be of a size and composition that is conducive to making decisions effectively, with the benefit of a variety of perspectives and skills, and in the best interest of the Company as a whole, rather than of individual shareholders or interest groups.
- (b) The Board is responsible for the appointment and rotation of directors.
- (c) A new director will receive a formal Letter of Appointment setting out the key terms and conditions relative to the appointment.

3.2. Composition of the Board

- (a) The Board will consist of directors with an appropriate range of experience, skill, knowledge and vision to enable it to operate the company’s business with excellence.

- (b) The Company's constitution contains detailed provisions concerning the tenure of directors.
 - (c) The Board has by adopting this Board Charter resolved that it will consist of a majority of non-executive directors.
 - (d) A director, other than a managing director (or if there is more than one managing director, the first appointed managing director), may not hold office for more than 3 years without submitting himself/herself for re-election. An election of directors is to occur at each annual general meeting ("**AGM**") of the company and the particular directors who are to retire or to stand for re-election at any particular AGM are those who have been longest in office.
- 3.3. Where the directors have appointed the chief executive officer as a director, he or she will remain in office for the period and on the terms agreed by the Board (subject to the terms of any agreement entered into between the chief executive officer and the company).
- 3.4. The Board will elect a chairman from its number to chair the Board. The chief executive officer (if also appointed a director) will not be appointed as chairman of the Board. In the absence of the chairman, the Board of the day will nominate a non-executive director, rather than the chief executive officer or another executive director, to chair the Board meeting.
- 3.5. The company secretary and chief financial officer can also attend Board meetings by invitation in an executive capacity.
- 3.6. Independence
- (a) In considering whether a director is independent, the Board refers to the company's Criteria for Assessing Independence of Directors attached hereto as Appendix A.
 - (b) Independent directors of the Company are those that are not involved in the day-to-day management of the company and are free from any real or reasonably perceived business or other relationship that could materially interfere with the exercise of their unfettered and independent judgement.
- 3.7. Access to information
- (a) The Board and committees must be provided with the information they need to effectively discharge their responsibilities.
 - (b) Management must supply the Board and committees with information in a form, time frame, and quality that enables them to effectively discharge their duties. All directors are to receive copies of committee papers.
- 3.8. Independent advice
- (a) A director may, at the cost of the company (up to a maximum aggregate amount of S\$5,000 in respect of any matter or such larger amount as the Board may approve from time to time at its discretion), obtain such independent legal, accounting and commercial advice as the director, acting reasonably, thinks necessary or desirable to permit him or her to fully and effectively discharge his or her duties and responsibilities as a member of the Board.

- (b) Directors must obtain prior approval from the chairman of their intention to obtain such independent legal, accounting, and commercial advice. The chairman will ensure that the party who will provide the advice have no conflict of interest and that the basis of the charge is reasonable.
- (c) The company will pay the costs of such independent legal, accounting, or commercial advice in excess of \$5,000, if the prior written approval of the chairman has been obtained prior to the incurring of those costs, and such approval not to be unreasonably withheld or delayed.

3.9. Material personal interest requirement

The Corporations Act and the Companies Act provides that unless agreed by the Board, where any director has a material personal interest in a matter, the director will not be permitted to be present during discussions, or to vote on the matter.

4. Guidelines for roles and responsibilities

- 4.1. The Board is appointed by shareholders and is responsible for overseeing the management of the company. For the Board to achieve this, it must appoint appropriately skilled management and delegate sufficient powers to management to allow them to manage the business effectively.
- 4.2. The Board must decide and review on a regular basis (at least annually) what it will delegate to management and what it will reserve for itself. The Board will generally set the limits of management's authority and establish delegation guidelines by:
 - (a) agreeing to a statement of matters that are reserved for the Board;
 - (b) approving a statement of delegations (to Board sub-committees and management); and
 - (c) formulating the chief executive officer's and other executive employees position descriptions.
- 4.3. In this context, the role of the Board is therefore:
 - (a) to carry out the tasks which it has reserved for itself; and
 - (b) to ensure that management are carrying out tasks that have been delegated and that they are managing the business properly.
- 4.4. In discharging his/her duties, each director must:

 - (b) act in good faith in the best interests of the Company;
 - (c) not improperly use his/her position or misuse information of the Company; and
 - (d) commit the time necessary to discharge effectively his/her role as a director.

- 4.5. All directors (including executive directors) are entitled to be heard at all meetings and should bring an independent judgement to bear in decision-making.
- 4.6. Executive directors are full members of the Board and participate fully in deliberations. This does not preclude non-executive directors from time to time meet to consider matters that may relate to the personal performance / positions of executive directors. Where possible these discussions can be facilitated by the chairman.
- 4.7. The Board has agreed to establish an annual agenda of key items to assist it in properly considering the right matters. The Board will approve and review annually, policies developed by management that cover the lines of responsibility and levels of authority between the Board, Board committees and management.

It is important that the chairman facilitate the effective contribution of all directors and promote constructive and respectful relations between Board members and between Board and management.
 - (b) The chairman is appointed by the Board and the Board may delegate some matters to the chairman. His/her role will encompass areas of activity both within and outside the boardroom. Within this context the chairman will ensure that the Board operates effectively by ensuring IT:

9. External auditor

A representative of sufficient seniority of the external auditor must attend the annual general meeting of the Company and must be available to answer questions about the audit and the preparations and content of the Auditor's Report.

CRITERIA FOR ASSESSING INDEPENDENCE OF DIRECTORS

Background on independence of directors

1. An independent director of the Company is independent of management and free from any business or other relationship that could materially interfere with, or could reasonably be perceived to materially interfere with, the exercise of their unfettered and independent judgement.
2. The Board must determine that a director is independent.

Assessment of independence

3. The Board will regularly assess the independence of each director in light of interests disclosed by them. So that it can do this, each independent director should provide to the Board all relevant information.
4. The Board will consider and determine whether each director can be regarded as an independent director. In assessing independence, the Board will consider if the director has a business or other relationship with the Company any entity inside the consolidated group. This would be either directly or as a partner, shareholder, or officer of a company or other entity that has an interest or a business or other relationship with the Company or its child or controlled entities.

Relationships

5. In assessing independence, the Board will have regard to whether the director:
 - (a) is, or has been, employed in an executive capacity by the entity or any of its child entities and there has not been a period of at least three years between ceasing such employment and serving on the Board;
 - (b) is, or has within the last three years been, a partner, director or senior employee of a provider of material professional services to the entity or any of its child entities;
 - (c) is, or has been within the last three years, in a material business relationship (eg as a supplier or customer) with the entity or any of its child entities, or an officer of, or otherwise associated with, someone with such a relationship;
 - (d) is a substantial security holder of the entity or an officer of, or otherwise associated with, a substantial security holder of the entity;
 - (e) has a material contractual relationship with the entity or its child entities other than as a director;
 - (f) has close family ties with any person who falls within any of the categories described above; or

- (g) has been a director of the entity for such a period that his or her independence may have been compromised.

For the purposes of this Criteria For Assessing Independence Of Directors a substantial shareholder shall mean a holder of shares representing 5% or more of the voting rights of a company.

6. In each case, the materiality of the interest, position, association or relationship needs to be assessed to determine whether it might interfere, or might reasonably be seen to interfere, with the director's capacity to bring an independent judgement to bear on issues before the Board and to act in the best interests of the entity and its security holders generally.
7. Family ties and cross-directorships may also be relevant in considering interests and relationships which may compromise independence and should be disclosed by directors to the Board.
8. In determining whether a non-executive director is independent, simply being a non-executive director on the Board of another entity is not, in itself, sufficient to affect independence. Nevertheless, any director on the Board of another entity is expected to excuse themselves from any meeting where that entity's commercial relationship with the Company is directly or indirectly discussed.
9. The above guidelines must be applied with common sense. Directors are best able to determine if they have an interest or relationship which is likely to impact on their independence. As such, each director is expected to advise the chairman immediately if he/she believes they may no longer be independent. Should the chairman or any other director have any concern about the independence of a director, they must immediately raise the issue with that director and, if the issue is not resolved, with the Board.
10. Should the chairman have any concern about his/her own independence, he/she must immediately raise the issue with the Board.
11. Each director must immediately disclose to the chairman (with a copy to the company secretary) all information relevant for determining whether the director is independent, including details of entities in which the director has a material direct or indirect shareholding (or other interest), is an executive officer or is a director.
12. In the preparation of the agenda for each board meeting, the chairman and company secretary need to be sensitive to disclosed interests and consider whether it is appropriate to withhold part or all of an agenda item (including any relevant papers) from any director because of a potential or actual conflict. If the chairman decides to withhold part or all of an agenda item from a director, he/she must advise the director at the time of dispatch of the relevant board paper.
13. Directors are to inform the chairman prior to accepting any new appointment to a public company's board.

Materiality

14. In the context of director independence, "materiality" is considered both from the perspective of the company and from the individual director, supplier, customer, consultant, adviser, or other third party. The determination of materiality requires consideration of both

quantitative and qualitative elements. Qualitative factors considered include whether a relationship is strategically important, the competitive landscape, the nature of the relationship and the contractual or other arrangements governing it and other factors which point to the actual ability of the director in question to shape the direction of the company's.

Disclosure

15. Directors considered by the Board to be independent will be identified as such in the Corporate Governance Statement within the annual report. The Board will also state its reasons if it considers a director to be independent notwithstanding the existence of a relationship of the kind referred to above.
16. Where there is a change to the independent status of a director, this is to be immediately disclosed to the market.

Number of independent directors on the Board

17. The Board believes that the interests of the shareholders are best served by directors having the appropriate skills and experience, and contacts within the company's areas of business. At various times there may not be a majority of the directors classified as being independent. Consequently, where any director has a material personal interest in a matter, the director will not be permitted to be present during discussions or to vote on the matter, unless agreed by the Board. Compliance with this requirement should ensure that the interest of shareholders, as a whole, are pursued and not jeopardised by a lack of a majority of independent directors.
18. Regardless of whether directors are defined as independent, all directors are expected to bring independent views and judgement to board deliberations.

CONTINUOUS DISCLOSURE POLICY

Adopted by the board of directors pursuant to a resolution dated 14 December 2017

1. Introduction

On admission to the official list of the National Stock Exchange of Australia ("**NSX**"), **JGY Holdings Limited** (the "**Company**") is committed to complying with all the continuous disclosure obligations imposed by the Corporations Act and listing rules of NSX ("**LR**").

2. Continuous disclosure practices

2.1. LR 6.4 reads as follows:

6.4 Generally, and apart from compliance with all the specific requirements of this Chapter, the *issuer* shall keep the *Exchange* informed without delay, for dissemination of any information relating to the *group* of which it is aware that:

- (1) is necessary to enable the *Exchange* and the public to appraise the financial position of the *issuer* and the *group*; or
- (2) is necessary to avoid the establishment of a false market in its *securities*; or
- (3) a reasonable *person* would expect to have a material effect on the price or value of its *securities*.

Such information must be made available to the *Exchange* before the time at which any other public announcement of the information is made.

2.2. In order to ensure the Company meets its obligation of timely disclosure of such information, the Company adheres to the following practices:

- (a) immediate notification to NSX of information concerning the Company that a reasonable person would expect to have a material effect on the price or value of the Company's securities as prescribed under LR 6.4, except where such information is not required to be disclosed under LR 6.5; and
- (b) having a general policy of not responding to market speculation or rumour.

2.3. However, the Company will also make an announcement:

- (a) in certain circumstances where the Board considers it appropriate to do so; or
- (b) where NSX considers there is, or is likely to be, a false market in the Company's securities.

3. Prevention of selective disclosure

3.1. The Company has established policies and procedures to prevent selective disclosure of information and to ensure that a wide audience of investors has access to information given to NSX for market release. These procedures include, but are not limited to:

- (a) a regime of regular senior management meetings to identify issues requiring disclosure;
- (b) ensuring that the company secretary is made aware of all disclosures in advance in order to minimise the risk of continuous disclosure breaches;
- (c) release of financial reports half yearly; and
- (d) regular media releases of important milestones, including information that may not strictly be required under the continuous disclosure requirements.

4. Other key continuous disclosure measures

- 4.1. All contact with external parties (including media, results briefings, and presentations to institutional investors and analysts) is on the basis that price sensitive information will not be discussed unless that particular information has been formally disclosed to the market via an NSX announcement. Any written materials containing new price sensitive information to be used in briefing media, institutional investors, and analysts are lodged with NSX prior to the briefing commencing.
- 4.2. To protect against inadvertent disclosure of price sensitive information, the Company imposes communication black-out periods for financial information between the end of financial reporting periods (30 June and 31 December) and the announcement of results to the market. Any briefings or media contact in this period are the subject of specific announcements to NSX.
- 4.3. Comments on expected earnings are confined to the Company's half yearly financial reports, annual general meetings, or forecasts in a bidder's statement or a prospectus, but any material change in a disclosed expectation is disclosed immediately via NSX. In reviewing the content of analysts' reports and profit forecasts, the Company will correct factual inaccuracies or historical matters.
- 4.4. The Company will not provide price sensitive information or earnings forecast guidance unless it has already been disclosed to the market via NSX.

5. Persons responsible for continuous disclosure

- 5.1. The company secretary is designated as the disclosure officer responsible for reviewing potential disclosures and deciding what information should be disclosed. In his absence the group chief financial officer is responsible.
- 5.2. Only the disclosure officer may authorise communication on behalf of the Company to the media, analysts, NSX and investors. This safeguards the premature exposure of confidential information and aims to ensure proper disclosure is made in accordance with the law.
- 5.3. The onus is on all employees to inform the disclosure officer of any price sensitive information as soon as becoming aware of it. The Company's executives are responsible for ensuring all employees understand and comply with this policy.
- 5.4. The company secretary has responsibility for co-coordinating disclosure of information to NSX in relation to continuous disclosure matters. In keeping in line with this policy, the chief executive officer and chief financial officer may conduct media presentations and interviews.

6. Review of the Continuous Disclosure Policy

The Board will review the Continuous Disclosure Policy at least once a year to ensure continued compliance with the Corporations Act, the NSX listing rules and best practices as it develops in Australia.
