## MARKET UPDATE

---

i-Global Holdings Limited (**Company**) refers to the late lodgement of its 30 June 2017 Half Year Report (**Report**). The Company restructured its Board and changed its financial service providers just prior to the due date of the Report.

This has resulted in delays in the preparation of the Report as the new appointed financial service provider works with the previous financial service provider to access and transition the required records and financial information. The preparation of the Report has been progressing, albeit, at a new slower pace than the Board had planned. The Company intends to finalise and lodge the Report by late January or early February.

Upon lodgement of the Report the Company will seek to have its shares resume trading.

Yours Faithfully

Dr Koon Lip Choo  
Executive Chairman
