

## **Beroni Group's SARS-CoV-2 Antigen Test Kit (Colloidal Gold Method) Received CE Certification**

NEW YORK and SYDNEY, December 21, 2020 (GLOBE NEWSWIRE) - Beroni Group (OTCQX: BNIGF; NSX: BTG) ("Beroni" or the "Company"), an Australia-based diversified biopharmaceutical enterprise focused on the research, development, innovation and commercialization of therapies and products for treatment of global diseases today announced that it has received notification from its European Authorized Representative, CMC Medical Devices & Drugs SL, that its newly developed **SARS-CoV-2 Antigen Test Kit (Colloidal Gold Method)** complies with the applicable essential requirements of the council directive 98/79/EEC in vitro diagnostics as amended.

Based on Beroni's SARS-CoV-2 IgG/IgM Antibody Detection Kit, the SARS-CoV-2 Antigen Test Kit (Colloidal Gold Method) optimizes the sample collection process. It requires no blood, and only a nasopharyngeal swab is needed to collect samples. This greatly improves the convenience of testing and the test results can be obtained within 10 minutes. This antigen test kit was prepared using colloidal gold solid-phase immunochromatography. A monoclonal antibody SARS-CoV-2 was pre immobilized on the cellulose nitrate membrane. The monoclonal antibody against the core protein of SARS-CoV-2 was labeled on colloidal gold on the glass fiber membrane. The double antibody sandwich immunoassay was used to detect the monoclonal antibody against the core protein of the SARS-CoV-2. The kit is used for qualitative assays of SARS-COV-2 antigen samples in vitro for professional use.

"Beroni is committed to providing protection and detection of the Covid-19 virus. At present, Beroni SARS-CoV-2 IgG/IgM Antibody Detection Kit has been exported to Britain, Japan and other countries. This new product is another significant milestone in our fight against the epidemic. We plan to distribute it to the European countries and other markets." commented Jacky Zhang, Chairman and CEO of Beroni Group. "People may never know they had Covid-19 with mild or even no symptoms. But Beroni's SARS-CoV-2 Antigen Test Kit (Colloidal Gold Method) can let testers know whether they have the antigen. This can help them prepare for vaccination. "

### **Forward-Looking Statements Disclaimer**

This press release contains forward-looking statements or forward-looking information, within the meaning of applicable United States and Australian securities laws with respect to the Company. By their nature, forward-looking statements are subject to a variety of factors that could cause actual results to differ materially from the results suggested by the forward-looking statements. Accordingly, readers should not place undue reliance on the forward-looking statements. Generally forward-looking statements can be identified by the use of terminology such as “anticipate”, “will”, “expect”, “may”, “continue”, “could”, “estimate”, “forecast”, “plan”, “intend”, “believe”, “potential” and similar expressions.

Forward-looking information contained in this press release is based on Company management’s opinions, estimates and assumptions in light of its experience and perception of historical trends, current conditions and expected future developments, as well as other factors that management currently believes are appropriate and reasonable in the circumstances. Forward-looking statements involve significant risks, uncertainties and assumptions, and there can be no assurance that such statements, or its underlying risks, uncertainties and assumptions will prove to be accurate. Factors that could cause actual results or events to differ materially include, without limitation, risks related to laws, rules and regulation applicable to the Company as well as the industry in which it operates (including in respect of taxes and other levies), economic or market conditions on both a national and global level, currency fluctuations, risks inherent to other entities at a similar stage of development and industry in which the Company currently is, competition from the Company’s competitors, unsatisfactory development or marketing of the Company and/or its products or services, regulatory action or litigation (including product liability claims), and failure to enter into agreements or arrangements with other parties on fair or reasonable terms. Forward-looking information is made only as of the date on which it is provided and, except as may be required by applicable laws, the Company disclaims any intent or obligation to update such forward-looking information whether as a result of new information, future events or otherwise.
