MOU signed to obtain CE Mark (Europe) for SoloFlow[®] & Blunt SoloFlow[®]

HIGHLIGHTS:

- **MOU signed in confidential agreement to obtain the CE Mark (Europe) for SoloFlow[®] and Blunt SoloFlow[®]**
- **CE Mark will enable SoloFlow[®] & Blunt SoloFlow[®] to be sold in Europe**

The Board of Telezon[®] Limited ("the Company") is very pleased to announce that a confidential Memorandum of Understanding ("MOU") has been signed between SSB Technology Pty Ltd (a wholly owned subsidiary of Telezon) and a third party outlining an agreement to undertake and obtain CE Marks for the Company's SoloFlow[®] and Blunt SoloFlow[®] needles. The eventual CE marking of SoloFlow[®] and Blunt SoloFlow[®] needles will enable the marketing and sales of both products to European countries, opening up greater commercial opportunities to Telezon.

The 'CE marking' is a "*mandatory conformity mark for products sold in the European Economic Area.*" The obtainment of the CE marking comes after a thorough conformity assessment and ensures that the product complies with the essential requirements of applicable directives – thus enabling free circulation in the European Market. The Company's SoloFlow[®] is already FDA registered (US Food and Drug Administration) which allows commercial distribution of this product in the US Market.

The Company is currently raising funds to accelerate the commercialisation and global reach of its products and technologies, further leveraged by these CE Marks and access to their corresponding regions. *For a copy of the Prospectus, refer to www.telezon.com*

For and on behalf of Telezon Limited,

Dr Michelle Carr
Director & Co. Secretary
