AsiaPacific Journal 'BioSpectrum' recognises Telezon's presence in India

HIGHLIGHTS:

- **Key bioscience journal highlights Telezon's supply of 'innovative plastic needles to two major players in India'**
-

During the recent Super Trade Mission to India (Life Sciences delegation), Telezon attracted interest across India including commercial groups and industry journals. Specifically, BioSpectrum* Asia has highlighted Telezon's commercial presence in India in a recent article.

To receive updates of the Company's achievements and activities, please register your details at <http://www.telezon.com/contact-us/register-updates>

**BioSpectrum is an integrated B2B media platform for the bioscience industry in the Asia Pacific region. It engages its readers from pharmaceutical, biotechnology & medical technology industry segments through its media products and services in Asia (daily, fortnightly and monthly frequencies across countries). Given its reporting focus on the Asia Pacific region, it is also a one-stop information hub on Asia bioscience industry for readers from US and Europe.*

For and on behalf of Telezon Limited,

Dr Michelle Carr
Director & Co. Secretary
