Telezon awarded Technology Development Voucher

HIGHLIGHTS:

- **Telezon awarded Technology Development voucher worth \$35,532 by Victorian Government.**

Telezon has been awarded a Technology Development voucher worth \$35,532 as part of the Victorian Government's Technology Voucher Program.

This funding will allow Telezon to develop a production tool for its DuoDraw® Transfer and Injection Device, as well as allowing the Company to produce marketing samples for use in discussions with prospective customers.

Telezon's portfolio consists of three technologies and four products. The DuoDraw® device is the third product in its portfolio that is being prepared for the global market. The Technology Development voucher will assist Telezon in accelerating the development of the market for the DuoDraw® and the ability to compete both locally and globally.

Telezon appreciates the opportunity provided by the Victorian Government to avail of this voucher program.
