Notes

1. **For announcement to the market** The percentage changes referred to in this section are the percentage changes calculated by comparing the current period's figures with those for the previous corresponding period. Do not show percentage changes if the change is from profit to loss or loss to profit, but still show the amount of the change up or down. If changes in accounting policies or procedures have had a material effect on reported figures, do not show either directional or percentage changes in profits. Explain the reason for the omissions in the note at the end of the announcement section. *Issuers* are encouraged to attach notes or fuller explanations of any significant changes to any of the items in page 1. The area at the end of the announcement section can be used to provide a cross reference to any such attachment.
2. **True and fair view** If this statement does not give a true and fair view of a matter (for example, because compliance with an Accounting Standard is required) the *issuer* must attach a note providing additional information and explanations to give a true and fair view.
3. **Consolidated statement of financial performance**
 - Item 1.1 The definition of "revenue" is set out in *AASB 118: Revenue*
 - Item 1.6 This item refers to the total tax attributable to the amount shown in *item 1.5*. Tax includes income tax and capital gains tax (if any) but excludes taxes treated as expenses from ordinary activities (eg. fringe benefits tax).
4. **Income tax** If the amount provided for income tax in this statement differs (or would differ but for compensatory items) by more than 15% from the amount of income tax *prima facie* payable on the profit before tax, the issuer must explain in a note the major items responsible for the difference and their amounts. The rate of tax applicable to the franking amount per dividend should be inserted in the heading for the column "Franking rate applicable" for items in *section 9*.
5. **Consolidated statement of financial position**

Format The format of the consolidated statement of financial position should be followed as closely as possible. However, additional items may be added if greater clarity of exposition will be achieved, provided the disclosure still meets the requirements of *AASB 134: Interim Financial Reporting*, and *AASB 101: Presentation of Financial Statements*. Banking institutions, trusts and financial institutions may substitute a clear liquidity ranking for the Current/Non-Current classification.

Basis of revaluation If there has been a material revaluation of non-current assets (including investments) since the last annual report, the *issuer* must describe the basis of revaluation adopted. The description must meet the requirements of *AASB 116: Property, Plant and Equipment*. If the *issuer* has adopted a procedure of regular revaluation, the basis for which has been disclosed and has not changed, no additional disclosure is required.
6. **Consolidated statement of cash flows** For definitions of "cash" and other terms used in this statement see *AASB 107: Cash Flow Statements*. *Issuers* should follow the form as closely as possible, but variations are permitted if the *directors* (in the case of a trust, the management company) believe that this presentation is inappropriate. However, the presentation adopted must meet the requirements of *AASB 107*.
7. **Net tangible asset backing** Net tangible assets are determined by deducting from total tangible assets all claims on those assets ranking ahead of the ordinary *securities* (i.e. all liabilities, preference shares, outside equity interests, etc). Mining *issuers* are *not* required to state a net tangible asset backing per ordinary *security*.
8. **Gain and loss of control over entities** The gain or loss must be disclosed if it has a material effect on the consolidated financial statements. Details must include the contribution for each gain or loss that increased or decreased the *issuer's* consolidated operating profit (loss) after tax by more than 5% compared to the previous corresponding period.

9. **Equity accounting** If an *issuer* adopts equity accounting, no comparative equity accounting figures are required in the first period following its adoption.
10. **Rounding of figures** This statement anticipates that the information required is given to the nearest \$1,000. However, an *issuer* may report exact figures, if the \$A'000 headings are amended. If an *issuer* qualifies under ASIC Class Order 98/0100 dated 15 July 2004, it may report to the nearest million dollars, or to the nearest \$100,000, if the \$A'000 headings are amended.
11. **Comparative figures** Comparative figures are to be presented in accordance with AASB 101: *Presentation of Financial Statements* or AASB 134: *Interim Financial Reporting* as appropriate and are the unadjusted figures from the last annual or half year report as appropriate. However, if the previously reported figures are adjusted to achieve greater comparability, in accordance with an accounting standard or other reason, a note explaining the adjustment must be included with this statement. If no adjustment is made despite a lack of comparability, a note explaining the position should be attached.
12. **Additional information** An *issuer* may disclose additional information about any matter, and must do so if the information is material to an understanding of the financial statements. The information may be an expansion of the material contained in this statement, or contained in a note attached to the statement. The requirement under the listing rules for an *issuer* to complete this statement does not prevent the *issuer* issuing statements more frequently. Additional material lodged with the ASIC under the *Corporations Act* must also be given to the *Exchange*. For example, a *directors'* report and declaration, if lodged with the ASIC, must be given to the *Exchange*.
13. **Accounting Standards** the *Exchange* will accept, for example, the use of International Accounting Standards for *foreign issuers*. If the standards used do not address a topic, the Australian standard on that topic (if one exists) must be complied with.
14. **Borrowing corporations** This statement may be able to be used by an *issuer* required to comply with the *Corporations Act* as part of its half yearly financial statements if prepared in accordance with Australian Accounting Standards.
15. **Details of expenses** AASB 101: *Presentation of Financial Statements* requires disclosure of expenses according to either their nature or function. For foreign entities, there are similar requirements in other accounting standards accepted by the *Exchange*. *Issuers* must disclose details of expenses using the layout (by nature or function) employed in their accounts.

The information in *items 7.1 - 7.2* may be provided in an attachment to Appendix 3

Relevant items AASB 101: *Presentation of Financial Statements* requires the separate disclosure of specific revenues and expenses which are of a size, nature or incidence that disclosure is *relevant*, as defined in AASB 101, in explaining the financial performance of the *issuer*. There is an equivalent requirement in AASB 134: *Interim Financial Reporting*. For foreign entities, there are similar requirements in other accounting standards accepted by the *Exchange*.

16. **Dollars** If reporting is not in A\$, all references to \$A must be changed to the reporting currency. If reporting is not in thousands of dollars, all references to "000" must be changed to the reporting value.
17. **Discontinuing operations**

Entities must either provide a description of any significant activities or events relating to discontinuing operations equivalent to that required by *paragraph 7.5 (g) of AASB 134: Interim Financial Reporting*, or, the details of discontinuing operations they are required to disclose in their accounts in accordance with AASB 5: *Non-current Assets for Sale and Discontinued Operations*

In any case, the information may be provided as an attachment to this Appendix 3
