## **DIRECTORS GOVERNANCE STATEMENT**

The Board has the responsibility of ensuring that the Company is properly managed so as to protect and enhance shareholders' interests in a manner that is consistent with the Company's responsibility to meet its obligations to governance policies with which it interacts. To this end, the Board has adopted what it believes to be appropriate corporate governance policies and practices having regard to its size and nature of activities.

The main corporate governance policies are summarised below:

### **Director's Access to Independent Advice**

It is the Board's policy that any committees established by the Board should:

- Be entitled to obtain independent professional or other advice at the cost of the Company, unless the Board determines otherwise.
- Be entitled to obtain such resources and information from the Company including direct access to employees of and advisers to the Company as they might require.
- Operate in accordance with the terms of reference established by the Board.

### **Audit Board and Risk**

The Board meets with the external auditors at least once a year. The specific activities include assessing and monitoring:

- The adequacy of the Company's internal controls and procedures to ensure compliance with all applicable legal obligations.
- The adequacy of the financial risk management processes.
- The appointment of the external auditor, any reports prepared by the external auditor and listing with the external auditor.

### **Remuneration and Management Succession Planning Committee**

The Board in fulfilling its responsibilities to shareholders by:

- Reviewing and approving the executive remuneration policy to enable the Company to attract and retain executives and Directors who will create value for shareholders;
- Ensuring that the executive remuneration policy demonstrates a clear relationship between key executive performance and remuneration;
- Maintaining a Board that has an appropriate mix of skills and experience to be an effective decision making body; and
- Ensuring that the Board is comprised of Directors who contribute to the successful management of the Company and discharge their duties having regard to the law and the highest standards of corporate governance.

### **REMUNERATION REPORT (Unaudited)**

This report details the nature and amount of remuneration for each director of Jinchi Biotech Ltd, and for the executives receiving the highest remuneration.

#### **Remuneration Policy**

All issues in relation of both Executive Directors and Non-Executive Directors are dealt with by the Board as a whole.

The Constitution of Jinchi Biotech Ltd requires approval by the shareholders in general meetings of a maximum amount for consideration in general meeting, and in determining the allocation, the Board takes account of the time demands made on Directors, together with such factors as the general level of fees paid to Directors. The amount of remuneration currently approved by shareholders for Non-Executive Directors is a maximum of \$50,000 per annum.

Non-Executive Directors hold office until such as they retire, resign or are removed from office under the terms set out in the constitution of the Company. Non-Executive Directors do not receive any performance based remuneration.

#### **Details of remuneration for period ended 31 December 2015**

Details of the remuneration for each Director of the Company was as follows:

## **INDEPENDENT AUDITOR'S REPORT**

To the Board of Jinchi Biotech Ltd.:

Xiang Yuan Yang (2016) Audit No. 496

We have audited the accompanying consolidated financial statements of Jinchi Biotech Ltd. (the "Company"), which comprise the consolidated statements of financial position as at December 31, 2015 and 2014, and the consolidated statements of profit or loss and other comprehensive income or loss, consolidated statements of changes in equity and consolidated statements of cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

### **Management's Responsibility for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Chinese Certified Public Accountants Auditing Standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2015 and 2014, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board.

# **Jinchi Biotech Ltd.**

## **Notes to Consolidated Financial Statements** *For the years ended December 31, 2015 and 2014* *(in Euros)*

### **1. Nature of Business**

Jinchi Biotech Ltd. (the "Company") was incorporated on March 13, 2014 under the British Virgin Islands ("BVI") Business Companies Act. The principal activity of the Company is investment holding. Its wholly-owned subsidiary Jinchi Enterprise Ltd. (the "Jinchi Enterprise") was incorporated on March 25, 2014 under the BVI Business Companies Act. Through Jinchi Enterprise's wholly-owned subsidiary, Divine Spring International Limited ("HK Divine Spring") which was registered in Hong Kong, and the Company incorporated a subsidiary – Zhangjiajie Divine Spring Enterprise Management and Consulting Co, Ltd. ("Zhangjiajie Divine Spring") in the People's Republic of China ("PRC") on March 24, 2014.

On May 16, 2014, Zhangjiajie Divine Spring entered an Exclusive Comprehensive Cooperation Agreements ("Agreements") with Zhangjiajie (China) Jinchi Giant Salamander Biological Technology Co., Ltd. ("Zhangjiajie Jinchi"), a limited liability company which was established on January 12, 2009. In accordance with the agreements, Zhangjiajie Jinchi retains Zhangjiajie Divine Spring as an exclusive service provider, including but not limited to corporate governance, management in operation and financial regulations, strategic consultation, and etc. Zhangjiajie Divine Spring is entitled to receive all of the net profits of Zhangjiajie Jinchi for each fiscal year as the consideration for the services provided.

Zhangjiajie Jinchi, the operating company, is in Biotech Industry. Its approved scope of business includes: giant salamander protection; tourism and tourist souvenirs development and sales; biotechnology research and development and product sales; cigarettes and cigars retail; merchandise sales; Pre-packaged foods, bulk foods, dairy products (excluding infant formula milk powder) wholesale and retail.

### **2. Significant Accounting Policies**

#### **Statement of compliance**

These consolidated financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). IFRS comprises IFRSs, International Accounting Standards, and interpretation issued by the IFRS Interpretations Committee ("IFRICs") and the former Standing Interpretations Committee.

The preparation of consolidated financial statements in accordance with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statement are described in Note 3 to the consolidated financial statements.

These consolidated financial statements were authorized for issuance by the Board of Directors of the Company on March 31, 2016.

# Jinchi Biotech Ltd.

## Notes to Consolidated Financial Statements

For the years ended December 31, 2015 and 2014

(in Euros)

## 2. Significant Accounting Policies - continued

### Basis of Consolidation

The consolidation financial statements have been prepared in conformity with IFRS, and reflect the accounts and operations of the Company and those of its wholly-owned subsidiaries. The Company also consolidates a Variable Interest Entities ("VIE"), for which it is the primary beneficiary. The primary beneficiary has both (a) the power to direct the activities of the VIE that most significantly affect the entity's economic performance, and (b) the obligation to absorb losses or the right to receive benefits. The Company, through its wholly-owned subsidiary – Zhangjiajie Divine Spring, has determined it as the primary beneficiary of Zhangjiajie Jinchi, the operating company, under the Agreement. As a result, the financial results of Zhangjiajie Jinchi are consolidated under the VIE consolidation model. The Company evaluates its relationship with the VIE on an ongoing basis to ensure that it continues to be the primary beneficiary. All intercompany transactions and balances have been eliminated in consolidation.

### Functional Currency and Foreign Currency Transactions

The functional currency of all of the Company's subsidiaries in PRC is the Renminbi ("RMB"). For the purpose of the consolidated financial statements, the results and financial position of each of these subsidiaries are translated to Euro. The functional currency of the Company's and other subsidiaries outside PRC is Euro.

For the purpose of presenting these consolidated financial statements, the assets and liabilities of foreign operations are translated to Euro using exchange rates prevailing at the end of the reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognized in other comprehensive income and accumulated as foreign currency translation reserve in equity. Monetary assets and liabilities denominated in a foreign currency are translated to the functional currency using the exchange rate in effect at the reporting date. Foreign exchange gains or losses are recorded in the consolidated statement of operations and comprehensive income (loss).

|                                        | December 31,<br>2015 | December 31,<br>2014 |
|----------------------------------------|----------------------|----------------------|
| Year end RMB: Euro exchange rate       | 7.0608               | 7.5358               |
| Annual average RMB: Euro exchange rate | 6.9733               | 8.1857               |

### Cash and Cash Equivalents

Cash consists of cash in hand and bank deposits. Cash equivalents refer to short-term and highly-liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

## **Jinchi Biotech Ltd.**

---

### **Notes to Consolidated Financial Statements** *For the years ended December 31, 2015 and 2014* *(in Euros)*

---

## **2. Significant Accounting Policies – continued**

---

### **Impairment of Financial Assets**

The Company assesses the recoverable amount of financial assets at each reporting date. Provisions of impairment shall be made if there are significant indicators:

- (1) Financial assets at FVTPL: the Company shall measure the financial assets at FVTPL at fair value on balance sheet date. The change in fair value shall be recognized in profit or loss;
- (2) Receivables: the Company shall made assessment for receivables on the balance sheet date. Provision shall be made if there is evidence to indicate the carrying amount of receivables is not recoverable;
- (3) Held-to-maturity investments: Provision of impairment shall be made on the balance sheet date if there is evidence to indicate the carrying amount is higher than the present value of future cash flows;
- (4) Available-for-sale: Provision of impairment shall be made on the balance sheet date if the fair value of available-for-sale financial assets is significantly lower than the carrying value and the impairment is other than temporary.

### **Inventory**

Inventories include raw materials, work-in-process, finished goods, consumption goods and packaging materials etc.

Weighted average method is used for inventory costing. On the reporting date, the Company values inventory at the lower of cost and net realizable value. Net realizable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

At each reporting date, inventories are measured at the lower of cost and net realizable value. If the cost of inventories is higher than the net realizable value, a provision for decline in value of inventories is recognized.

---

### Notes to Consolidated Financial Statements For the years ended December 31, 2015 and 2014 (in Euros)

---

## 2. Significant Accounting Policies – continued

### Plant and Equipment

Plant and equipment are initially recorded at cost, including all directly attributable costs to bring the assets to the location and condition necessary for it to be capable of operating in the manner intended by management. Plant and equipment are subsequently stated in the statements of financial position at their cost less accumulated depreciation and accumulated impairment losses.

Depreciation is calculated based on the depreciable amount, which is the cost of an asset less its residual value. Depreciation is recognized over the estimated useful life of each component of an item of plant and equipment, using the straight-line method and the following annual rates:

|                      | <u>Methods</u>            | <u>Residual Value</u> |
|----------------------|---------------------------|-----------------------|
| Building             | Straight-line for 20 year | 5%                    |
| Machinery            | Straight-line for 10 year | 5%                    |
| Electronic equipment | Straight-line for 5 year  | 5%                    |
| Office equipment     | Straight-line for 5 year  | 5%                    |
| Exhibition equipment | Straight-line for 20 year | 5%                    |
| Furniture            | Straight-line for 5 year  | 5%                    |

The Company reviews the estimated useful lives, residual values and depreciation method at the end of each annual reporting period, accounting for the effect of any changes in estimate on a prospective basis.

Subsequent costs that meet the asset recognition criteria are capitalized, while costs incurred that do not extend the economic useful life of an asset are considered repairs and maintenance, which are accounted for as an expense recognized during the period.

The gain or loss arising on disposing of or retiring an item of plant and equipment is determined as the difference between the sales proceeds and the asset's carrying amount and is recognized in profit or loss.

Properties in the course of construction for production, supply or administrative purposes, are carried at cost, less any recognized impairment loss. Cost includes purchase price of raw materials, consumables used, direct labour and other costs directly attributable to constructing the assets and, for qualifying assets, borrowing costs capitalized in accordance with the Company's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

## **Jinchi Biotech Ltd.**

---

### **Notes to Consolidated Financial Statements** *For the years ended December 31, 2015 and 2014* *(in Euros)*

---

## **2. Significant Accounting Policies – continued**

### **Impairment of non-financial assets**

At the end of each reporting period, the Company reviews its plant and equipment and land use rights to determine whether there is any indication those assets have been impaired. If any such indication exists, the Company estimates the asset's recoverable amount to determine the extent of the impairment loss (if any). Where it is not possible to estimate an individual asset's recoverable amount, the Company estimates the recoverable amount of the cash-generating unit ("CGU") to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate reflecting current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss. When allocating an impairment loss of a CGU, the impairment loss is allocated to the individual asset within the CGU on a pro-rata basis based on the carrying amount of individual asset within the CGU.

Where an impairment loss subsequently reverses if the conditions that give rise to impairment are no longer present and it has determined that the asset (or CGU) is no longer impaired as a result, the carrying amount of the asset (or CGU) is increased to the revised estimate of its recoverable amount, to the extent of the carrying amount that would have been determined had no impairment loss been recognized for the asset (or CGU) in prior periods. A reversal of an impairment loss is recognized immediately in profit or loss.

### **Intangible Assets**

The intangible assets are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over their estimated useful lives, being the terms of the patent and business licenses set by the Chinese government and laws. The Company reviews the estimated useful life and amortization method at the end of each reporting period.

### **Long-term Deferred Expenses**

Long-term deferred expenses represent expenses incurred that should be borne and amortized over certain periods. Long-term prepaid expenses are amortized using the straight-line method over the expected periods in which benefits are derived.

## **Jinchi Biotech Ltd.**

---

### **Notes to Consolidated Financial Statements** *For the years ended December 31, 2015 and 2014* *(in Euros)*

---

## **2. Significant Accounting Policies – continued**

### **Employee Salaries and Benefits**

Employee salaries and benefits represent the various payments made to the employees for the services provided. The salaries and benefits include: 1) wages, bonus and allowance; 2) welfare; 3) medical insurance, social security, unemployment insurance, workplace safety insurance, maternity insurance and other social benefits; 4) housing allowance; 5) union and education allowance; 6) non-monetary benefit; 7) compensation for termination of employment contract, and 8) other related expenses paid to employees for service rendered.

The Company records the unpaid salary as payables. Except for the compensations paid for the termination of employment contract, the expenditures are included in the cost of sales, labor costs, fixed assets, intangible assets or profit or loss of current period respectively based on the nature of employee services provided.

### **Revenue Recognition**

The Company generates revenues mainly from the sales of museum tickets and sales of merchandise. Revenue is recognized as follows:

#### **1) Sales of museum tickets:**

Revenues from Giant Salamander Science and Technology museum ticket sales are recognized when the tickets are sold.

#### **2) Sales of merchandise:**

The Company recognizes revenue from the sale of its merchandise when goods are delivered and the following criteria are met:

- 1) the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- 2) the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- 3) the amount of revenue can be measured reliably;
- 4) it is more likely than not that the associated economic benefits will flow to the Company, and
- 5) the associated costs incurred or to be incurred can be measured reliably.

## **Jinchi Biotech Ltd.**

---

### **Notes to Consolidated Financial Statements** *For the years ended December 31, 2015 and 2014* *(in Euros)*

---

## **2. Significant Accounting Policies – continued**

### **Government grants**

Government grants are not recognized until there is reasonable assurance that the company will comply with the conditions attaching to them and that the grants will be received.

### **Income Tax**

Current income tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted at the reporting date, and any adjustment to tax payable in respect of previous years. Deferred income taxes are calculated using the asset and liability method of accounting for temporary differences. Under this method, deferred tax assets and liabilities are determined based on differences between the financial reporting and tax bases of assets and liabilities and on unclaimed losses carried forward and are measured using the enacted or substantively enacted tax rates that will be in effect when the differences are expected to reverse or losses are expected to be utilized. Deferred income tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

### **Borrowing costs**

Borrowing costs directly attributable to acquiring, constructing or producing qualifying assets are capitalized as part of the cost of those assets until the assets are substantially ready for their intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Investment income earned on the temporary investment of borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

### **Application of New and Revised International Financial Reporting Standards**

IAS 32 – Financial instruments: presentation (“IAS 32”) was amended by the IASB in December 2011. The amendment clarifies that an entity has a legally enforceable right to offset financial assets and financial liabilities if that right is not contingent on a future event and it is enforceable both in the normal course of business and in the event of default, insolvency or bankruptcy of the entity and all counterparties. The amendments to IAS 32 became effective for the Company on January 1, 2014. The Company determined that the adoption did not result in any change to the consolidated financial statements.

IAS 36 – Impairment of assets (“IAS 36”) was amended by the IASB in May 2013. The amendments require the disclosure of the recoverable amount of impaired assets when an impairment loss has been recognized or reversed during the period and additional disclosures about the measurement of the recoverable amount of impaired assets when the recoverable amount is based on fair value less costs of disposal, including the discount rate when a present

value technique is used to measure the recoverable amount. The amendments to IAS 36 became effective for the Company on January 1, 2014. Enhanced disclosures are included in these consolidated financial statements.

## **2. Significant Accounting Policies – continued**

### **Application of New and Revised International Financial Reporting Standards - continued**

In May 2013, the IASB issued IFRIC 21 – Levies (“IFRIC 21”), an interpretation of IAS 37 – Provisions, Contingent Liabilities and Contingent Assets (“IAS 37”), on the accounting for levies imposed by governments. IAS 37 sets out criteria for the recognition of a liability, one of which is the requirement for the entity to have a present obligation as a result of a past event (“obligating event”). IFRIC 21 clarifies that the obligating event that gives rise to a liability to pay a levy is the activity described in the relevant legislation that triggers the payment of the levy. IFRIC 21 became effective for the Company on January 1, 2014. The Company determined that the adoption did not have a material impact on the consolidated financial statements.

### **New and revised IFRSs issued but not yet effective**

The standards and interpretations that are issued, but not yet effective, that the Company reasonably expects will have an impact on its current or future disclosures, financial position or performance when applied at a future date, are disclosed below.

#### *IFRS 9 Financial Instruments*

IFRS 9 was issued by the IASB on July 24, 2014 and will replace IAS 39 Financial instruments: recognition and measurement. IFRS 9 utilizes a single approach to determine whether a financial asset is measured at amortized cost or fair value and a new mixed measurement model for debt instruments having only two categories: amortized cost and fair value. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Final amendments released on July 24, 2014 also introduce a new expected loss impairment model and limited changes to the classification and measurement requirements for financial assets. IFRS 9 is effective for annual periods beginning on or after January 1, 2018. The Company is currently evaluating the impact the final standard is expected to have on its consolidated financial statements.

#### *IFRS 15 Revenue from Contracts with Customers*

IFRS 15, as issued in May 2014, establishes a new five-step model that will apply to revenue earned from a contract with a customer, regardless of the type of revenue or industry. The principles in IFRS 15 provides a more structured approach to measuring and recognizing revenue and will be applied using the following five steps: (1) identify the contract(s) with a customer; (2) identify the performance obligations in the contract; (3) determine the transaction price; (4) allocate the transaction price to the performance obligations in the contract; and (5) recognize revenue when (or as) the entity satisfies a performance obligation. This new revenue standard, which has been jointly issued by the IASB and the US Financial Accounting Standards Board, is applicable to all entities and will supersede the current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required

*(in Euros)*

for annual periods beginning on or after January 1, 2017, but early adoption is permitted under IFRS. The Company is currently evaluating the impact the final standard is expected to have on its consolidated financial statements.

## **2. Significant Accounting Policies – continued**

### **New and revised IFRSs issued but not yet effective - continued**

#### *IAS 1 Presentation of Financial Statements*

IAS 1 was amended by the IASB on December 18, 2014. The amendments to existing IAS 1 requirements relate to materiality; order of the notes; subtotals; accounting policies; and disaggregation. The amendments are effective for annual periods beginning on or after January 1, 2016. The adoption of these amendments may reduce certain disclosures of the Company's consolidated financial statements.

#### *IAS 16 Property, plant and equipment*

IAS 16 was amended by the IASB on May 12, 2014. The amendments to IAS 16 clarify that the use of revenue-based methods to determine the depreciation of an asset is not appropriate. However, the amendments provide limited circumstances when a revenue-based method can be an appropriate basis for amortization. The amendments are effective for annual periods beginning on or after January 1, 2016. The adoption of these amendments is not expected to have a material impact on the Company's consolidated financial statements.

#### *IFRS 11 Joint arrangements*

IFRS 11 was amended by the IASB in May 2014. The amendments require business combination accounting to be applied to acquisitions of interests in a joint operation that constitute a business. The amendments are effective for annual periods beginning on or after January 1, 2016. The adoption of these amendments is not expected to have a material impact on the Company's consolidated financial statements.

### 3. Critical accounting estimates and judgements

The preparation of financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results could differ from management's best estimates as additional information becomes available in the future.

In particular, information about significant areas of estimation uncertainty considered by management in preparing the consolidated financial statements are described below:

Useful lives and residual values of plant and equipment and land use rights: Management estimates the useful lives and residual values to calculate depreciation expense using the straight-line method.

Allowance for impairment of trade receivables and other receivables: Management assesses the credit worthiness and past collection history of each individual customer to arrive at and provide for an allowance for impairment of receivables.

Write-down of inventories: Management determines the write-down for inventories that are obsolete or for which cost is higher than net realizable value. These estimates are made with reference to analysis of aged inventories, projections of expected future saleability of goods and management experience and judgment.

Income taxes: Management is required to make estimates regarding the tax basis of assets and liabilities and related deferred income tax assets and liabilities, amounts recorded for uncertain tax positions and measurement of income tax expense and indirect taxes. A number of these estimates requires management to make estimate of its future taxable profit, and if actual results are significantly different from our estimates, the recognition of deferred tax asset in the consolidated financial statements could be impacted.

Estimated impairment of non-current assets or asset groups: Significant judgment is required to determine whether long-lived assets or cash-generating units ("CGU") should be tested for impairment and the grouping of assets for purpose of impairment testing.

Contingencies: By their nature, contingencies will only be resolved when one or more future events occur or fail to occur. The assessment of contingencies inherently involves the exercise of significant judgment and estimates of the outcome of future events.

On March 13, 2014, the Company was incorporated in BVI with authorized and issued common shares of Euro at no par value each. Upon the reorganization on May 16, 2014, the Company has become the ultimate holding company of the Company. A nominal amount of €100 is recorded as share capital as of December 31, 2015 and 2014.

## Jinchi Biotech Ltd.

### Notes to Consolidated Financial Statements

For the years ended December 31, 2015 and 2014

(in Euros)

During the year ended December 31, 2014, additional capital contribution of €1,248,311 (RMB 10,530,000) was injected to Zhangjiajie Jinchi. The amount is recorded as additional paid in capital on the consolidated financial statement as of December 31, 2015 and 2014.

#### 13. Share Capital - continued

On August 14, 2014, the original shareholder of the Company sold majority of his ownership to various parties at 0.06 Euro per share. After the transaction, the original shareholder owns 9.9% of the Company's common share, and there are two other parties own over 10% of common shares respectively.

#### 14. Income Tax

Pursuant to the relevant laws and regulation in the PRC, the subsidiaries incorporated in the PRC are governed by the Income Tax Laws of the PRC and subject to income tax at effective rates of 25% on the income reported. The Company (legal parent) is incorporated in BVI, which is the country with exemption of income tax. The other subsidiaries incorporated at Hong Kong are subject to income taxes on their taxable income at tax rates of 16.5%, respectively in accordance with the relevant tax laws.

There is no income tax provision recognized by the Company as at December 31, 2015 and 2014 due to no taxable income generated during the year. Unused tax losses arising from the PRC subsidiaries can be carried forward to offset taxable income for 5 years under PRC Income Tax Laws, however, full amount of unused tax losses at December 31, 2015 and 2014 is recognized as allowance of temporary differences due to uncertainty of expected future profitability. Thus, no deferred tax assets has been recognized for the years ended December 31, 2015 and 2014.

#### 15. Revenue

Hunan Jinchi Landscape Company Limited (the "Landscape") is a company under common control with the Company as at December 31, 2015 and 2014.

#### 21. Commitments

The Company signed an agreement with Zhangjiajie Giant Salamander Rescue Center for the lease of land. The lease term has twenty years starting from January 1, 2010 to December 31, 2030. The Company has paid the lease deposit of €14,163 (RMB 100,000) which was recorded as other receivable. The rent for the first ten years is €28,325 (RMB 200,000) per annum, and the rent is subjected to an annual increase of €1,416 (RMB 10,000) for the years subsequent to the first ten years.

#### 22. Capital Management

The Company's objective is to maintain a strong capital base so as to maintain investors, creditors and market confidence and to sustain future development of the business. Management defines capital as the Company's shareholders' equity. The Company has a significant amount of balance from shareholder and related parties for working capital purposes and therefore net earnings generated operations are not entirely available for reinvestment in the Company. The management does not establish quantitative return on capital criteria for management, but rather promotes year over year sustainable profitable growth. There were no changes in the Company's approach to capital management during the year.

The Company's financial instruments are exposed to certain financial risks including credit risk and liquidity risk.

#### Credit risk

The Company's maximum exposure to credit risk which will cause a financial loss to the Company due to failure to discharge an obligation by the counterparties is arising from the carrying amounts of the respective recognized financial assets as stated in the consolidated statements of financial position.

The Company's exposure to credit risk with its customers is influenced mainly by the individual characteristics of each customer. A significant portion of the Company's trade receivables is from customers with long trading history with no default payment. 100% of trade receivable balances are within 90 days range for both year 2015 and 2014, and over the past three years, the Company has no suffered any significant credit related losses with any of its customers.

#### Liquidity risk

Liquidity risk is the risk that the Company is not able to meet its financial obligations as they fall due. The Company's approach to managing liquidity risk is to ensure that sufficient cash and credit facilities are available to meet liabilities when due. The Company's financial liabilities, consisting of accounts payable and other payables, are expected to be realized within one year. Their carrying value on the consolidated statements of financial positions are stated as undiscounted cash flow based on the earliest date on which the Company can be required to satisfy the liabilities.

#### **24. Financial instruments - continued**

##### **Fair Value**

The fair value of other financial assets and financial liabilities is determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

The Company considers that the carrying amounts of financial assets and financial liabilities recorded at amortized cost in the consolidation financial statements approximate their fair value.
