27 July 2011

Announcement to the BSX

Bendigo Community Telco has signed a new 5 year contract to provide a managed national data network to Bendigo and Adelaide Bank.

Bendigo Community Telco Limited (BCT) is very pleased to announce that on 26 July 2011 it finalised a contract with the Bendigo & Adelaide Bank Limited for the supply of Wide Area Network (WAN) services.

This contract is for a term of 5 years commencing from 1 July 2011 whereby BCT will provide WAN services including management provided by its Network Operations Centre across the Bank's entire network throughout Australia including 483 branch sites.

This contract demonstrates the capability of BCT and the confidence that one of its long term larger supporters and customers has in its ability to deliver such a key service.

The Board and Management are extremely pleased with this development as it enhances the company's transition to become a supplier of broad ranging data management services in addition to the more traditional communication services it also offers.

Yours faithfully
