NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2007

Note 1: Statement of Accounting Policies

The significant accounting policies adopted in the preparation of this financial report are:

(a) Basis of Preparation

The financial report is a general purpose financial report that has been prepared in accordance with Accounting Standards, including Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001.

The following is a summary of the material accounting policies adopted by the company in the preparation of the financial report. These accounting policies have been consistently applied, unless otherwise stated.

The company has prepared the financial statements in accordance with all International Financial Reporting Standards (IFRS) in their entirety.

The accounting policies set out below have been consistently applied to all years presented.

(b) Revenue Recognition

Revenues are recognised at fair value of the consideration received not of the amounts of goods and services tax (GST). Exchanges of goods or services of the same nature and value without any cash consideration are not recognised as revenues.

Franchise Revenue

Franchise revenue is recognised when the services are provided.

Interest Income

Interest income is recognised when it accrues.

(c) Income Tax

The charge for current income tax expense is based on the profit for the year adjusted for any non-assessable or disallowed items. It is calculated using tax rates that have been enacted or are substantially enacted by the balance sheet date.

Deferred tax is accounted for using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. No deferred income tax will be recognised from the initial recognition of an asset or liability where there is no effect on accounting or taxable profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled. Deferred tax is credited in the income statement except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted directly against equity.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profits will be available against which deductible temporary differences can be utilised.

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation, and the anticipation that the company will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

HOBSON'S BAY COMMUNITY FINANCIAL SERVICES LTD
A.C.N. 091 661 166

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2007

(d) Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value less where applicable any accumulated depreciation and impairment losses.

Property

Freehold land and buildings are shown at their fair value (being the amount for which an asset could be exchanged between knowledgeable willing parties in an arm's length transaction), based on a valuation by Landlink Property Group Pty Ltd, independent valuers dated 5th September 2006.

Plant and Equipment

Plant and equipment are measured on the cost basis less depreciation and impairment losses.

The carrying amount of plant and equipment is reviewed annually by the directors to ensure it is not in excess of the amount recoverable from these assets.

(e) Leases

Leases of fixed assets, where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership, are transferred to the Company are classified as finance leases. Finance leases are capitalised, recording an asset and a liability equal to the present value of the minimum lease payments, including any guaranteed residual value.

Leased assets are depreciated on a straight line basis over their estimated useful lives where it is likely that ownership of the assets will be obtained or over the term of the lease. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

(f) Investments

Non-current investments are measured on the cost basis. The carrying amount of investments is reviewed annually by the directors to ensure it is not in excess of the recoverable amount of these investments. The recoverable amount is assessed from the quoted market value for shares in listed companies or the underlying net assets for other non-listed corporations. The expected net cash flows from investments have not been discounted to their present value in determining the recoverable amounts.

Dividends are brought to account in the profit and loss account when received.

(g) Franchise Fee

The Franchise Fee is initially recorded at the amount, which the Franchisee paid the Franchisor. The Franchise Fee is amortised on a straight line basis over the life of the agreement which expires on 12th November, 2007. The balance is reviewed annually and any balance representing future benefits for which the realisation is considered to be no longer probable is written off.

(h) Employee Entitlements

Provision is made for the company's liability for employee benefits arising from services rendered by employees to balance date. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits.

The company contributes to a superannuation fund as required by law. Contributions are charged against income as they are made.

HOBSON'S BAY COMMUNITY FINANCIAL SERVICES LTD
A.C.N. 091 661 166

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2007

(i) Cash

For the purpose of the statement of cash flows, cash includes cash on hand and in at call deposits with banks or financial institutions and investments in money market instruments maturing within less than two months, net of bank overdrafts.

(j) Comparative Figures

Where required by Accounting Standards comparative figures have been adjusted to conform with changes in presentation for the current financial year.

(k) Payables

Liabilities are recognised for amounts to be paid in the future for goods, or services received, whether or not billed to the Company. Trade accounts payable are normally settled within 60 days.

(l) Receivables

Trade Debtors

The Bendigo Bank Limited is the company's only trade debtor. Accounts are settled every 30 days and no provision has been made for any portion of the amount due to be doubtful.

(m) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Tax Office (ATO). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of expense.

Receivables and payables in the statement of financial position are shown inclusive of GST.

The net amount of GST recoverable from, or payable to, the ATO is included as a current asset or liability in the statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis. The GST components of cash flows arising from investing and financing activities which are recoverable from, or payable to, the ATO are classified as operating cash flows.
