RE: Provisional 2010-2011 Results

Having reviewed the unadjusted 2010-2011 results at the July general meeting this week, I am proud to advise Shareholders that Redlands Community Financial Services Ltd will be reporting a profit; once the auditors have completed respective adjustments and finalise their report and after TAX; of approximately \$70K.

From an \$80K loss in 2008-09 to somewhere near a \$70K profit this financial year represents a \$150K turn around in 24 months and a is source of pride for staff and Board.

Faithfully,

Garry White
Chairman
