Comments by *directors*

The annual accounts of the economic entity show a net loss of \$107,000, which the directors believe is a satisfactory result. As outlined in this yearly disclosure of last financial year, the directors have continued to use retained profits to further develop and grow the business. The benefits of this growth strategy, which the directors believe is both definite in purpose and holistic in nature, are reflected in the growth of revenue from livestock operations which are now conducted at two major centres and several smaller centres. The reported loss has been driven by two key factors: 1. no sales of industrial land in the reporting period and 2. an increase in financing costs of \$257,000. The matter of no land sales is an issue of timing; VLE holds land (Graham Court twelve lots) ready for sale and selling now with a revenue potential of between \$2.5m and \$3m. The costs of developing this land have been brought to account in the reporting period and are reflected in the increase in "inventories" of \$821,000. Three of the lots are under contract and are expected to settle before the end of October. The increase in finance costs is a consequence of funding expansion of the business and the refurbishment of the VLE Leongatha facility which was purchased from Landmark during the reporting period. The directors are satisfied the full benefit of the adopted growth strategy will be seen in the company's bottom line results in the years ahead. VLE expects to settle at least six of the twelve lots for sale in the next financial year; value approximately \$1.25m.

The economic entity, through its wholly owned subsidiary, VLE Advisory Services, continues to be the major provider of electronic reading services to agency owned yards in Victoria, Tasmania and southern NSW.

Basis of accounts preparation

If this statement is a half yearly statement it should be read in conjunction with the last annual report and any announcements to the market made by the entity during the period.

Material factors affecting the revenues and expenses of the entity for the current period including seasonal or cyclical factors

Refer directors' comments

A description of each event since the end of the current period which has had a material effect and is not related to matters already reported, with financial effect quantified (if possible)

None

Franking credits available and prospects for paying fully or partly franked dividends for at least the next year

Balance of group franking accounts at 30 June 2006 adjusted for franking credits arising from payment of provision for income tax and franking debits arising from payment of proposed dividends is \$571,000. It is expected that any further dividends payable in the next year will be fully franked.

Changes in accounting policies since the last annual report and estimates of amounts reported in prior years are disclosed as follows.

As this is the first annual financial report prepared under Australian equivalents to IFRS, the accounting policies applied are inconsistent with those applied in the 30 June 2005 annual report as this report was presented under previous Australian GAAP. A summary of the inconsistencies are as follows:

- 1) Under AASB138 Intangible assets with an indefinite useful life are not amortised but subject to annual impairment testing. All Intellectual Property amortised under previous GAAP has been reversed. Amortisation charges amounting to \$40,000 have been reversed to retained earnings at 1 July 2004. Intellectual Property amounting to \$9,000 previously amortised in the 2005 full financial year has been reversed to the income statement for the year ended 30 June 2005.
- 2) Under AASB112: Income Taxes, the entity has adopted a balance sheet approach under which temporary differences are identified for each asset and liability rather than the effects of the timing and permanent differences between taxable income and accounting profit. This has resulted in the recognition of a deferred tax liability at 30 June 2005 of \$1,412,000 in relation to the asset revaluation. A corresponding reduction has been recognised in the asset revaluation reserve.
- 3) Under Australian equivalents to IFRS, gains or losses on disposal of non-current assets are recognised on a net basis by recognising the proceeds net of the carrying value of the asset. Under previous GAAP, gross proceeds were disclosed as revenue and carrying value of assets disposed disclosed as expense. This reclassification has no effect on net profit for the 2005 full financial year.

Changes in the amounts of contingent liabilities or assets since the last annual report are disclosed as follows.

None

Notes

True and fair view If this statement does not give a true and fair view of a matter (for example, because compliance with an Accounting Standard is required) the entity must attach a note providing additional information and explanations to give a true and fair view.

Income tax If the amount provided for income tax in this statement differs (or would differ but for compensatory items) by more than 15% from the amount of income tax *prima facie* payable on the profit before tax, the entity must explain in a note the major items responsible for the difference and their amounts.

Additional information An entity may disclose additional information about any matter, and must do so if the information is material to an understanding of the financial statements. The information may be an expansion of the material contained in this statement, or contained in a note attached to the statement.
