Press Release – SweepDri Involved in Sydney Water training

Following from the success of several training sessions held in conjunction with Sydney Water at their Sydney Training facility in Birrong, SweepDri has been asked to continue offering training sessions in 2005.

Training sessions will be held on a monthly basis and will have accredited Sydney Water sub-contractors in attendance.

This is a great opportunity to educate the people who are actually doing the work for Sydney Water.

SweepDri Limited has had a good relationship with Sydney water since 1990 when Drizoro products were first authorized as suitable for use with potable (drinking) water and recommended on Sydney Water jobs.

Being involved with this training program shows SweepDri's commitment to quality training and education for users of our products.

A handwritten signature in black ink, appearing to read 'Darren Cuschieri'.
